Des Townson was a yacht designer and boatbuilder who possessed an analytical mind, an innate feel for sailing boats and a wonderful eye for their visual balance. During a five decade long design career he produced some of the most eye-catching, easily handled and well performing maritime craft to ever grace New Zealand waters. The fact he was self-taught and worked almost his entire career alone only intensifies the achievements of this remarkable man. His own recollections and those of his family, close friends and associates combined with photos, boat plans and press reports, ensure a detailed record of his impact on the New Zealand sailing scene is preserved. Des Townson's legacy continues to this day through the thousands of yachts still bearing his name.

A complete & comprehensive RV buying guide designed in three easy-to-read sections. Section 1 includes a step-by-step process for determining the type of recreational vehicle required to satisfy the buyer's needs. It expands on how to choose a recreational vehicle for weekending, vacationing, snowbirding, or fulltiming--whether it's a motor home, travel trailer, camper, or tent trailer. It details types of tow vehicles & matching criteria: weight consideration; how to compare brands & more. Section 2 will take the buyer through an inspection process to determine positive & negative features of the RV's design,

workmanship & structural integrity. This section includes illustrations & photos in a special "Walk-Around" chapter to show the buyer the specific steps for a good evaluation. Section 3 will take the buyer through the buying process, which includes negotiating techniques to assist in avoiding pitfalls normally associated with financing & extended warranties. After a thirty-year career as high profile vet, columnist, presenter and author Bruce Fogle decided to leave urban Britain and take a journey with his dog Macy. Travelling in the footsteps of the great American novelist John Steinbeck, who published "Travels with Charley--"his standard poodle--in the '60s, Fogle set off in search of the North America of his childhood. Would he, after all this time, be able to work out whether home meant the UK or America? Would he find the welcoming, peaceful backwaters of his youth unchanged?

This book, drawn from the award-winning online Oxford Dictionary of National Biography, tells the story of our recent past through the lives of those who shaped national life.

For ten years Marsha, Paul, and Simba cruised the snowbird circuit from Los Angeles to Key West, in three different motorhomes, towing a Saturn, with numerous campground membershipstwo years as full-timers,

when their family considered them homeless. In addition to the U.S. snowbird hotspots, they RVed in Mexico, Alaska, and New Zealand, and lived in Canada's winter tropics Parksville, B.C. This book is a compilation of fifteen years experiencing, observing, reading, and Googling. It discusses the ideal snowbird "rig", preparations, destinations, routes, parks, clubs, campground memberships, lifestyles, and challenges. It is the quintessential budget guide for the Great Escape to Where the Sun Spends the Winter.

A soup-to-nuts introduction to small, economical sailing craft trailer sailers--the smallest, most economical sailboats with sleeping accommodations--are a popular platform for learning the basics of sailing and are often considered to be the entry level to cruising under sail. Author Brian Gilbert shows how trailer sailers can be the ideal craft for a lifetime of enjoyment, including serious, long-distance cruising. This book covers all the bases, including how to inspect, buy, and equip a boat; how to trailer, sail, navigate, and cruise in small boats; how to use communications and navigation equipment; and more.

Features all provinces.

Coverage includes: Experimental findings around coherent vortical structures (CVS) in turbulent boundary layers and methods of controlling them Static and dynamic mechanical characteristics of elastic composite coatings, as well as new techniques and devices developed for their measurement Combined methods of flow control and drag reduction, including the effect of injection of polymer solutions, elastic coatings and generated longitudinal vortical structures on hydrodynamic resistance Intended as a reference for senior engineers and researchers concerned with the drag reduction and the dynamics of turbulent boundary layer flows, Boundary Layer Flow over Elastic Surfaces provides a unique source of information on compliant surface drag reduction and the experimental techniques around it that have shown measurable and repeatable improvements over recent years.

Describes and illustrates the navies of over 170 nations of the world.

About our Book Living the Dream is the true-life adventure story of our seven-year cruise from Newport, Oregon, to Phuket, Thailand in the 35-foot steel-hulled sailboat, Tainui. This book gives a true picture of what it's really like for a retired couple to live their dream of full time cruising to far away places: the highs of beautiful sailing days, snorkeling off pristine coral, anchoring in tropical lagoons, exotic cultural experiences, and the fellowship of the cruising community--but also fear in storms, the exhaustion of sleepless night watches, discouragement of endless boat maintenance, and a rusting through of Tainui's hull. Although we wrote Living the Dream for a general audience, serious sailors will find a wealth of helpful cruising information and steel boat owners will profit from our significant learning experiences in our maintenance of Tainui's steel hull. About us We began our lives far apart--Connie in parts of Californis that were far from the sea and with no aspirations to cross oceans and Vern in the busy seaport city of Seattle dreaming of sailing away some day. We eventually met at the University of Washington, married, started or family and careers--Vern as a social worker and Connie as a teacher. It was our four years of living with our family in Malaysia while Vern was on the staff of the Peace Corps there that sparked our desire to one day be full time world travelers. This book, I have written, has helped to release all the tension I had with the obstacles I met along with the raising of this family. With the farm life and the large family, including a son with birth defects and Down's syndrome, life was strenuous. Years of struggling to keep the family well and happy. With the help of good doctors and surgeons, in Bobby's case, we have seen that it can be done. I was always trusting God in each incidence. It is my hope that this book will prove to be an inspiration to any and all who have the privilege of reading it.

This is the complete reference to the classic yachts and dinghies still sailing today. Focusing on the most well-known, popular and enduring designs - from the 7ft Optimist to the 125ft J class - this beautifully illustrated book showcases 144 boats from across the world, with a wealth of detail on each class, including: the origins and history of the class; what it's like to sail one; fascinating stories about the boat, who sailed her, and her development; stunning photography, sailplans and sail symbol; full detail on her length, layout and designer. Featuring designers from an internationally recognised hall of fame (including William Fife, Olin Stevens, Maurice Griffiths and Uffa Fox), Classic Classes is the perfect resource for classic boat owners and enthusiasts worldwide, whether their interest lies in high-performance thoroughbred racers, well-loved creek crawling cruisers or popular home-built classic dinghies. Published in advance of the 2012 Olympics, there is also a section devoted to the 46 Olympic classes.
