

5th Grade Science Summer Packet

5TH GRADE AT HOME offers simple, guided lessons and activities that students and their parents can use to help keep grade-appropriate English and math skills on track. With the perfect mix of practical lessons and hands-on activities, the Learn at Home series helps keep kids engaged and up-to-date—no matter where class is held. Written to bolster independent learning, this student-centric workbook includes parent tips and simple support to help keep kids' education on track. • Guided help for key 5th grade English and math topics • Skills broken into short, easy-to-accomplish lessons • Modules designed to encourage students to dive in, explore, and engage in interactive learning • Fun at-home learning activities using common household items • Parent tips to contextualize lessons and help assist your child
5th Grade at Home covers key grade-appropriate English and math topics such as: • grammar • vocabulary • reading comprehension • writing • number families & lines • multiplication & division • fractions & ratios • factors & primes • time, distance, and money problems ... and more!

Completely revised with new profiles of more than 150 elementary schools and pre-kindergarten programs! For nearly 2 decades, parents have looked to Clara Hemphill to help them find a good public school for their child. This Fourth Edition features all-new reviews of more than 150 of the city's best public elementary schools, based on visits and in-depth interviews by the InsideSchools staff. This essential guide uncovers the "inside scoop" on schools (the condition of the building, special programs, teacher quality, and more), includes a checklist of things to look for on a school tour, and incorporates new listings of charter schools and stand-alone pre-kindergarten programs. Give your soon-to-be first grader a head start on their upcoming school year with Summer Bridge Activities: Bridging Grades K-1. With daily, 15-minute exercises kids can review rhyming and counting and learn new skills like telling time and writing complete sentences. This workbook series prevents summer learning loss and paves the way to a successful new school year. --And this is no average workbook!Summer Bridge Activities keeps the fun and the sun in summer break! Designed to prevent a summer learning gap and keep kids mentally and physically active, the hands-on exercises can be done anywhere. These standards-based activities help kids set goals, develop character, practice fitness, and explore the outdoors. With 12 weeks of creative learning, Summer Bridge Activities keeps skills sharp all summer long!

TEACH YOUR STUDENTS TO READ LIKE CHAMPIONS—WITH RIGOR, INDEPENDENCE, PRECISION, AND INSIGHT The world we are preparing our students to succeed in is one bound together by words and phrases. Our students learn their literature, history, math, science, or art via a firm foundation of strong reading skills. When we teach students to read with precision, rigor, and insight, we are truly handing over the key to the kingdom. Of all the subjects we teach reading is first among equals. Grounded in advice from effective classrooms nationwide, enhanced with more than 40 video clips, Reading Reconsidered takes you into the trenches with actionable guidance from real-life educators and instructional champions. The authors address the anxiety-inducing world of Common Core State Standards, distilling from those standards four key ideas that help hone teaching practices both generally and in preparation for assessments. This 'Core of the Core' comprises the first half of the book and instructs educators on how to teach students to: read harder texts, 'closely read' texts rigorously and intentionally, read nonfiction more effectively, and write more effectively in direct response to texts. The second half of Reading Reconsidered reinforces these principles, coupling them with the 'fundamentals' of reading instruction—a host of techniques and subject specific tools to reconsider how teachers approach such essential topics as vocabulary, interactive reading, and student autonomy. Reading Reconsidered breaks an overly broad issue into clear, easy-to-implement approaches. Filled with practical tools, including: 44 video clips of exemplar teachers demonstrating the techniques and principles in their classrooms (note: for online access of this content, please visit my.teachlikeachampion.com) Recommended book lists Downloadable tips and templates on key topics like reading nonfiction, vocabulary instruction, and literary terms and definitions. Reading Reconsidered provides the framework necessary for teachers to ensure that students forge futures as lifelong readers.

Workbook Features: • Ages 12-14, Grades 7-8 • 160 pages, about 8 inches x 10 1/2 inches • Reading, writing, math, science, social studies, and more • Includes fun fitness activities • Flash cards, completion certificate, and answer key included Hands-On Summer Learning: Summer Bridge Activities Workbook helps seventh—eighth graders keep their skills sharp during the summer months to prevent summer learning loss through fun practice pages and activities, engaging fitness activities, and more. What's Included: This book covers all subjects, focusing on grammar, reading comprehension, graphing, dictionary skills, geometry, social studies, science experiments, fitness activities, and more. Includes flash cards and a completion certificate. How It Works: Each page is numbered by day so kids and parents can track progress and reach monthly learning goals. Each activity features clear, step-by-step instructions and practice pages to help sharpen students' skills for the school year ahead. Just 15 Minutes A Day: Two months of learning loss occurs during the summer, with the highest losses being in math and spelling. This activity book is designed to prevent summer learning loss in just 15 minutes per day through hands-on activities. Why Summer Bridge: Award-winning Summer Bridge Activities® engage children's creativity and learning potential and keep kids mentally and physically active to prevent summer learning loss and pave the way for a successful new school year ahead.

LIFE Magazine is the treasure photographic magazine that chronicled the 20th Century. It now lives on at LIFE.com, the largest, most amazing collection of professional photography on the internet. Users can browse, search and view photos of today's people and events. They have free access to share, print and post images for personal use.

Implications From Everyday, Classroom, and Professional Settings

Putting the ISLLC Standards Into Practice

Summer Bridge Activities™, Grades 3 - 4

This volume explores the integration of recent research on everyday, classroom, and professional scientific thinking. It brings together an international group of researchers from each context; discuss connections between contexts, and explore structures; technologies, and environments to facilitate the development and practice of scientific thinking. The chapters focus on: " situations from young children visiting museums, " middle-school students collaborating in classrooms, " undergraduates learning about research methods, and " professional scientists engaged in cutting-edge research. A diverse set of approaches are represented, including sociocultural description of situated cognition, cognitive ethnography, educational design experiments, laboratory studies, and artificial intelligence. This unique mix of work from the three contexts deepens our understanding of each subfield while at the same time broadening our understanding of how each subfield articulates with broader issues of scientific thinking. To provide a common focus for exploring connections between everyday, instructional, and professional scientific thinking, the book uses a "practical implications" subtheme. In particular, each chapter has direct implications for the design of learning environments to facilitate scientific thinking.

Give your soon-to-be third grader a head start on their upcoming school year with Summer Bridge Activities: Bridging Grades 2-3. With daily, 15-minute exercises kids can review skip-counting and using adjectives and learn new skills like rounding numbers and writing compound sentences. Read about a neighborhood of All-American kids, growing up. The stories will make you laugh and maybe cry.School was cool! Freedom and free thinking ruled the day. Girls were going through a revolutionary change and boys didn't have a chance. The boys were learning that the girls really did have something special.Summer romance and first loves are some of the many stories; but baseball, treeforts, fighting and much more are part of the story. Who knew girls could become sharks?"Out of the depths of the dark sea, Candy appeared like a large shark, with deep, dark eyes. It was like a scene from a prison movie; she swam by my table and dumped chocolate milk in my lunch tray. The boys laughed and had a heyday with that one. We went out to recess. As soon as Russ, Skip and I hit the exit doors there appeared Candy and her gon squad of six girls. Betty Smith, the Amazon Woman, Janet Betts, Ms Butch America, and several other girls who had hair on their upper lips. Betty said to Skip, "You're gettin' your ass kicked shrimp!"This excerpt is just one of many fun filled, action packed tales.

Six Timeline Panels, Marker, and Study Guide.Develop your own unique art timelines with this set of special Create-A-Timeline panels with mark and erase surface.Students can research art history, art styles, ancient art, multicultural art, as well as artists and their work, and apply color reproductions, black and white copies, or draw examples that illustrate the time frame being studied. Includes a dry erase marker for marking dates and events which easily wipes off with a dry cloth. Water soluble markers can also be used.Six 27 x 13-inch panels on heavy card stock can be joined to create a timeline over 13 feet long or used individually. Teacher's Guide includes ideas and examples of how to use the timeline panels and has an 8 1/2 x 11-inch reproducible student timeline.

Eliminate summer learning loss with this easy-to-use resource for parents. Keeping the skills your child learned in fourth grade sharp while on break from school will help his or her fifth grade year get off to a great start. This standards-based tool provides 9 weeks of engaging and relevant lessons that support content learning in social studies, writing, reading, science, math, and art. This resource makes summer learning fun by incorporating everyday family activities that are easy for parents to implement. This standards-based resource also addresses shifts in Common Core and other state standards, and the parental-support tools will help parents prepare their children for academic success.

This book provides guidance to individuals who are involved in the clinical preparation of aspiring principals and superintendents. The authors argue for a high-quality internship or mentoring experience and for basing experiences around the Interstate School Leaders Licensure Consortium (ISLLE) framework. Additionally, it will assist mentors in understanding their vital roles in ensuring such an experience.

Workbook Features: • Ages 10-12, Grades 5-6 • 160 pages, about 8 inches x 10 1/2 inches • Reading, writing, math, science, social studies, and more • Includes fun fitness activities • Flash cards, completion certificate, and answer key included Hands-On Summer Learning: Summer Bridge Activities Workbook helps fifth/sixth graders keep their skills sharp during the summer months to prevent summer learning loss through fun practice pages and activities, engaging fitness activities, and more. Extreme Writing

Impoverished young Americans had no greater champion during the Depression than Eleanor Roosevelt. As First Lady, Mrs. Roosevelt used her newspaper columns and radio broadcasts to crusade for expanded federal aid to poor children and teens. She was the most visible spokesperson for the National Youth Administration, the New Deal's central agency for aiding needy youths, and she was adamant in insisting that federal aid to young people be administered without discrimination so that it reached blacks as well as whites, girls as well as boys. This activism made Mrs. Roosevelt a beloved figure among poor teens and children, who between 1933 and 1941 wrote her thousands of letters describing their problems and requesting her help. Dear Mrs. Roosevelt presents nearly 200 of these extraordinary documents to open a window into the lives of the Depression's youngest victims. In their own words, the letter writers confide what it was like to be needy and young during the worst economic crisis in American history. Revealing both the strengths and the limitations of New Deal liberalism, this book depicts an administration concerned and caring enough to elicit such moving appeals for help yet unable to respond in the very personal ways the letter writers hoped.

Give your soon-to-be fifth grader a head start on their upcoming school year with Summer Bridge Activities: Bridging Grades 4-5. With daily, 15-minute exercises kids can review fractions and prepositional phrases and learn new skills like finding volume and understanding homographs.
