A heart-expanding novel about four Latinx teens who make New Year ' s resolutions for one another—and the whirlwind of a year that follows. Fans of Erika L. S á nchez and Emery Lord will fall for this story of friendship, identity, and the struggle of finding yourself when all you want is to start over. From hiking trips to four-person birthday parties to never-ending group texts, Jess, Lee, Ryan, and Nora have always been inseparable. But now with senior year on the horizon, they ' ve been growing apart. And so, as always, Jess makes a plan. Reinstating their usual tradition of making resolutions together on New Year ' s Eve, Jess adds a new twist: instead of making their own resolutions, the four friends assign them to one another—dares like kiss someone you know is wrong for you, find your calling outside your mom ' s Puerto Rican restaurant, finally learn Spanish, and say yes to everything. But as the year unfolds, Jess, Lee, Ryan, and Nora each test the bonds that hold them together. And amid first loves, heartbreaks, and life-changing decisions, beginning again is never as simple as it seems.

From the author of Silver Wings, Iron Cross comes a suspenseful and thrilling saga based on the true story of one of World War II ' s most daring and successful rescue missions. Summer 1944: Yugoslavia is locked in a war within a war. In addition to fighting the German occupation, warring factions battle each other. Hundreds of Allied airmen have been shot down over this volatile region, among them American lieutenant Bill Bogdonavich. Though grateful to the locals who are risking their lives to shelter and protect him from German troops, Bogdonavich dreams of the impossible: escape. With three failed air missions behind him, Lieutenant Drew Carlton is desperate for redemption. From a Texas airbase he volunteers for a secretive and dangerous assignment, codenamed Operation Halyard, that will bring together American special operations officers, airmen, and local guerilla fighters in Yugoslavia ' s green hills. This daring plan—to evacuate hundreds of stranded airmen while avoiding detection by the Germans—faces overwhelming odds. What follows is one of the greatest stories of World War II heroism, an elaborate rescue that required astonishing courage, sacrifice, and resilience. Red Burning Sky is a riveting and ultimately triumphant military thriller based on true events, all the more remarkable for being so little known—until now.

Told through the lens of a guy in love with the cosmos (and maybe two girls), The Universal Laws of Marco explores the complicated histories that bring us together and tear us apart. In the summer before eighth grade, Marco Suarez kissed his best friend Sally Blake. This was his first spark. And since then, whenever he's thought about that moment, he's traveled through a wormhole-of sorts-to relive those brief seconds when time sped up (or, rather, his view of time distorted) and he kissed her. And then, at the end of that year, she disappeared, leaving in that way that people sometimes leave—alive and well and somewhere out there but gone, nonetheless. She never even said why. And now in their senior year, Sally unexpectedly returns and Marco is shaken. Still, he holds tightly to his carefully choreographed life. A life that is full of reasons why first sparks don't matter: Reason 1: He has a girlfriend. Her name is Erika Richards. Reason 2: He's leaving on a full scholarship to college. Reason 3: He's busy with his friends and making money to help support his family. But as Marco navigates the final days of high school, he learns that leaving home is never easy and a first spark is hard to ignore.
