This two-volume compendium brings together leading scholars from around the world who provide authoritative studies of the old and new epistemic motifs and

theoretical strands that have characterized the interdisciplinary field of comparative and international education in the last 50 years. It analyses the shifting agendas of scholarly research, the different intellectual and ideological perspectives and the changing methodological approaches used to examine and interpret education and pedagogy across different political formations, societies and cultures.

Waves in Oceanic and Coastal Waters describes the observation, analysis and prediction of wind-generated waves in the open ocean, in shelf seas, and in coastal regions with islands, channels, tidal flats and inlets, estuaries, fjords and lagoons. Most of this richly illustrated book is devoted to the physical aspects of waves. After introducing observation techniques for waves, both at sea and from space, the book defines the parameters that characterise waves. Using basic statistical and physical concepts, the author discusses the prediction of waves in oceanic and coastal waters, first in terms of generalised observations, and then in terms of the more theoretical framework of the spectral energy balance. He gives the results of established theories and also the direction in which research is developing. The book ends with a description of SWAN (Simulating Waves Nearshore), the preferred computer model of the engineering community for predicting waves in coastal waters.

When Jacob and Wilhelm Grimm published their Children's and Household Tales in 1812, followed by a second volume in 1815, they had no idea that such stories as "Rapunzel," "Hansel and Gretel," and "Cinderella" would become the most celebrated in the world. Yet few people today are familiar with the majority of tales from the two early volumes, since in the next four decades the Grimms would publish six other editions, each extensively revised in content and style. For the very first time, The Original Folk and Fairy Tales of the Brothers Grimm makes available in English all 156 stories from the 1812 and 1815 editions. These narrative gems, newly translated and brought together in one beautiful book, are accompanied by sumptuous new illustrations from award-winning artist Andrea Dezsö. From "The Frog King" to "The Golden Key," wondrous worlds unfold—heroes and heroines are rewarded, weaker animals triumph over the strong, and simple bumpkins prove themselves not so simple after all. Esteemed fairy tale scholar Jack Zipes offers accessible translations that retain the spare description and engaging storytelling style of the originals. Indeed, this is what makes the tales from the 1812 and 1815 editions unique—they reflect diverse voices, rooted in oral traditions, that are absent from the Grimms' later, more embellished collections of tales. Zipes's introduction gives important historical context, and the book includes the Grimms' prefaces and notes. A delight to read, The Original Folk and Fairy Tales of the Brothers Grimm presents these peerless stories to a whole new generation of readers.

"Magnificent." -Kathleen Foley, author of the Faith in Uniform series In a violent age when enemies besiege Brydein and alliances shift as swiftly as the wind, stand two remarkable

leaders: the Caledonian warrior-queen Gyanhumara and her consort, Arthur the Pendragon. Their fiery love is tempered only by their conviction to forge unity between their disparate peoples. Arthur and Gyan must create an impenetrable front to protect Brydein and Caledonia from land-lusting Saxons and the marauding Angli raiders who may be massing forces in the east, near Arthur ' s sister and those he has sworn to protect. But their biggest threat is an enemy within: Urien, Arthur ' s rival and the man Gyan was treaty-bound to marry until she broke that promise for Arthur ' s love. When Urien becomes chieftain of his clan, his increase in wealth and power is matched only by the magnitude of his hatred of Arthur and Gyan—and his threat to their infant son. *Morning ' s Journey*, sequel to the critically acclaimed *Dawnflight*, propels the reader from the heights of triumph to the depths of despair, through the struggles of some of the most fascinating characters in all of Arthurian literature. Those struggles are exacerbated by the characters ' own flawed choices. Gyan and Arthur must learn that while extending forgiveness to others may be difficult, forgiveness of self is the most excruciating—yet ultimately the most healing—step of the entire journey.

Rev. ed. of: Neurological rehabilitation / [edited by] Darcy A. Umphred; with section editors, Gordon U. Burton, Rolando T. Lazaro, Margaret L. Roller. 5th ed. c2007.

From a childhood spent playing marbles and climbing trees in Ceylon to a medical career in bustling Singapore, Dr K. Puvanendran's experiences have been rich and varied. A leading neurologist, he counts kings and presidents among his former patients. This charmingly written autobiography traces the trajectory of his life against the changing landscapes of two vastly different countries. As a boy in Jaffna, Dr Puvanendran found imaginative ways to fill his time. He recounts with great relish the carefree pranks, adventures and school experiences. Woven into the evocation of these simple pleasures are also sobering glimpses of the darker periods in Ceylon's history. After attending medical college in Colombo, Dr Puvanendran stayed in Ceylon to work before accepting a position at Outram Road General Hospital, now Singapore General Hospital, in 1971. As the narrative unfolds, we read about the roots of his interest in neurology, the highs and lows of his career, the doctors who inspired him and the most memorable medical cases from his fifty years of practice. Some of these intriguing cases include sleep-related crimes, for which he has testified in court as a local pioneer in sleep medicine. Dr Puvanendran's story takes us through the old world of Ceylon and into the heady post-independence days of Majulah Singapura ("Onward Singapore", as the national anthem proclaims), offering along the way a successful doctor's take on the study and practice of medicine.

BIG APPLE TO BAY STATE is the 5th book in the continuing series called "The Suppers Series". It is a meticulously-crafted fictionalized, real-life-based story of the life journey of a naturalized American citizen who was earlier born into a polygamous African family of a father, with eight wives and forty six children. Dege the principal character was the 3rd of 46 children of his father and the first of the six children of his mother. The series eloquently narrates Dege's years growing up, going to school, passing through an excruciating civil war, then medical school, and ultimately his immigration to the United States of America where he took up citizenship and was to literally start life anew. He initially, on his own volition, ministered to the best but most challenged of America, the finest men and women who had unfortunately lost their minds to Alzheimer's disease and who had to be confined in a facility. However, a new horizon was to open up to this adventurous son of Africa from some seven thousand miles away from home as from the sunny West coast he relocated first to New York City and later to Massachusetts. Interlacing with matching poetry, Big Apple to Bay State narrates the joys and vicissitudes of urban New York City with its congestion, subways, 24 hour ceaseless buzz, and dazzling neon lights and the sharp contrasts for Dege as he and his wife relocate to a more remote, yet highly sophisticated Western Massachusetts community with multitudes of cooperating if not competing higher educational institutions. The adventure continues as the senior goes back to school and and finds fulfillment rehearsing many unfamiliar volumes of books. Eloquent and captivating stories meticulously crafted like no other, subtly persuading, subtly challenging; stories which glue the attention of the reader from the beginning to the end. Although a continuing series, each book in "the Suppers Series" can stand independent of the others as each tells a unique and captivating story. The earlier 4 books in "The Suppers Series" are "Suppers of Many Dishes part 1", "Suppers of Many Dishes Part 2", "Coming Late to America" and "A Spot to Perch".
