*The Oxford Handbook of Religion and Race in American History brings together a number of established scholars, as well as younger scholars on the rise, to provide a scholarly overview for those interested in the role of religion and race in American history. Thirty-four scholars from the fields of History, Religious Studies, Sociology, Anthropology, and more investigate the complex interdependencies of religion and race from pre-Columbian origins to the present. The volume addresses the religious experience, social realities, theologies, and sociologies of racialized groups in American religious history, as well as the ways that religious myths, institutions, and practices contributed to their racialization. Part One begins with a broad introductory survey outlining some of the major terms and explaining the intersections of race and religions in various traditions and cultures across time. Part Two provides chronologically arranged accounts of specific historical periods that follow a narrative of religion and race through four-plus centuries. Taken together, The Oxford Handbook of Religion and Race in American History provides a reliable scholarly text and resource to summarize and guide work in this subject, and to help make sense of contemporary issues and dilemmas. The entertainment industry has long been dominated*

*by legendary screenwriter William Goldman's "Nobody-Knows-Anything" mantra, which argues that success is the result of managerial intuition and instinct. This book builds the case that combining such intuition with data analytics and rigorous scholarly knowledge provides a source of sustainable competitive advantage – the same recipe for success that is behind the rise of firms such as Netflix and Spotify, but has also fueled Disney's recent success. Unlocking a large repertoire of scientific studies by business scholars and entertainment economists, the authors identify essential factors, mechanisms, and methods that help a new entertainment product succeed. The book thus offers a timely alternative to "Nobody-Knows" decision-making in the digital era: while coupling a good idea with smart data analytics and entertainment theory cannot guarantee a hit, it systematically and substantially increases the probability of success in the entertainment industry. Entertainment Science is poised to inspire fresh new thinking among managers, students of entertainment, and scholars alike. Thorsten Hennig-Thurau and Mark B. “I wish I ’d read this book before everything I went through.” Sumeer, Part-time writer, full-time lover

‘ Author may be exaggerating some stuff. Not everything has to be believed. ’ Priya Jain, 100-meter specialist, bad at marathons ‘ My favourite travel

companion.’ Kanika Malhotra, Gypsy with a vintage car ‘ If you know your destination, your speed would tell you the time needed to cover the distance. But what if the distance is zero and the destination is inside of you? How much time does it take then? More importantly, which vehicle do you choose?’ Maria, Sumeer, Kanika and Nigel embark on a similar journey at different points in their lives, to realise that love can have a different meaning for everyone, that no love can have a different meaning for everyone, that no love is greater than the other, and that love comes with possibilities, not limitations. Wandering Wheels is a gripping, stay-up-all-night treat to all the anxious souls trying to discover their places in this unfair yet beautiful world. It gives a lesson or two about unconditional love and forgiveness, incessant pain and liberation, and the serendipitous twists and turns fate brings in this journey called life, from one wheel to another. A single-volume resource featuring state-of-the art reviews of key elements of the roll-to-roll manufacturing processing methodology Roll-to-roll (R2R) manufacturing is an important manufacturing technology platform used extensively for mass-producing a host of film-type products in several traditional industries such as printing, silver-halide photography, and paper. Over the last two decades, some of the methodologies and know-how of R2R manufacturing have been extended and adapted in

many new technology areas, including microelectronics, display, photovoltaics, and microfluidics. This comprehensive book presents the state-of-the-art unit operations of the R2R manufacturing technology, providing a practical resource for scientists, engineers, and practitioners not familiar with the fundamentals of R2R technology. Roll-to-Roll Manufacturing: Process Elements and Recent Advances reviews new developments in areas such as flexible glass, display, and photovoltaics and covers a number of process innovations implemented recently to extend and improve the capabilities of traditional R2R lines. It covers such topics as: coating and solidification processes, in-line vacuum deposition, drying, web handling and winding, polymer film substrates, novel hybrid composite films, flexible solar cells and more. Additionally, this book: Examines key elements (unit operations) of the R2R technology, and discusses how these elements are utilized and integrated to achieve desired process efficiencies in a host of applications. Illustrates several established and novel application areas where R2R processing is utilized in current or future products. Discusses process design methodology and key advantages of R2R manufacturing technology over batch or sheet-to-sheet operations. Roll-to-Roll Manufacturing: Process Elements and Recent Advances is an ideal book for undergraduate and graduate students in

The Wild, Obsessive Hunt for the World's Rarest 78rpm Records

One woman's dark night leads her on a journey to find her light. Butterfly Awakens depicts the story of the extraordinary transformation of a forty-something Italian American attorney as she moves through unimaginable grief and sadness watching her beloved mother lose her battle to breast cancer. This tumultuous life experience shifts her world, causing her to question her life choices and opening her up to her soul's calling. Nocero brings readers along on her journey through a dark night of the soul as she deals with the grieving process, a toxic work environment, and intense stress that results in depression, anxiety, and an acquired somatic nervous disorder called tinnitus. Through it all, she never gives up, instead looking for the help she needs to start to heal and find her light. In the end, like the metamorphosis from caterpillar to butterfly, this story is a beautiful love letter that honors Nocero's mother's legacy while detailing the awakening of her own. There are many stories about breast cancer and grief, but none are quite like this one. Throughout her tale, Nocero pulls the reader deep into her story through the intensity of her emotions; and in the end, after resigning from her career as a federal prosecutor due to a toxic

administration, she searches for the lighthouse she saw in a vision when her mother died. Embarking on a spiritual pilgrimage on El Camino de Santiago in Northern Spain to get to the lighthouse at Cap Finisterre, she sets out to wake up and live again; the butterfly connection and stark honesty of her writing offers readers important lessons learned from moving through grief so that each person can shine their light again.

Coldplay's unique sound has captured the hearts of the world time and time again. Christopher Anthony John "Chris" Martin is an English musician, singer, songwriter, record producer and philanthropist. He is best known as the co-founder and lead singer of the British rock band Coldplay. Born in Whitestone, near Exeter in Devon, Martin went to University College London where he formed a rock band with fellow musician Jonny Buckland in 1996 called Starfish, which was eventually renamed Coldplay in 1998. Martin, along with the other Coldplay members, achieved worldwide fame with the release of the band's single "Yellow" in 2000, a song that also earned the band their first Grammy Award nomination in the Best Rock Song category. The band also garnered critical acclaim and several accolades for their subsequent albums including *A Rush of Blood to the Head* and *Viva la Vida*, winning a Grammy

**This book is a novel in terms of genre. At the same time, it is a case study that presents a series of religious experiences and how the authenticity of religious experiences are currently being examined, evaluated in the Judeo-Christian cultural circle. Through concrete, personal examples, it will also be seen how researchers outside the centralized psychological-philosophical-logical research are silenced by the Hungarian and international research community.**
