

The 4 Disciplines Of Execution Achieving Your Wildly Important Goals

Disruption by digital technologies? That's not a new story. But what is new is the "wise pivot," a replicable strategy for harnessing disruption to survive, grow, and be relevant to the future. It's a strategy for perpetual reinvention across the old, now, and new elements of any business. Rapid recent advances in technology are forcing leaders in every business to rethink long-held beliefs about how to adapt to emerging technologies and new markets. What has become abundantly clear: in the digital age, conventional wisdom about business transformation no longer works, if it ever did. Based on Accenture's own experience of reinventing itself in the face of disruption, the company's real world client work, and a rigorous two-year study of thousands of businesses across 30 industries, Pivot to the Future reveals methodical and bold moves for finding and releasing new sources of trapped value-unlocked by bridging the gap between what is technologically possible and how technologies are being used. The freed value enables companies to simultaneously reinvent their legacy, and current and new businesses. Pivot to the Future is for leaders who seek to turn the existential threats of today and tomorrow into sustainable growth, with the courage to understand that a wise pivot strategy is not a one-time event, but a commitment to a future of perpetual reinvention, where one pivot is followed by the next and the next.

'As a GTD devotee for nearly two decades, I know how these principles have transformed my own work life. So I'm thrilled that David Allen is bringing his brilliance to the most important audience of all: Our young people. Today's teenagers face a tsunami of distractions and pressures. This practical and powerful book will ease their stress and focus their minds in ways that will last a lifetime' - Daniel H. Pink, New York Times bestselling author of When and Drive 'If you learn these techniques, they'll pay off for decades' - Charles Duhigg, New York Times bestselling author of The Power of Habit The most interconnected generation in history is navigating unimaginable amounts of social pressure, both in personal and online interactions. Very little time, focus or education is being spent teaching and coaching this generation how to navigate the unprecedented amount of 'stuff' entering their lives each day. How do we help the overloaded and distracted next generation deal with increasing complexity and help them not only survive, but thrive? How do we help them experience stress-free productivity and gain momentum and confidence? How do we help them achieve autonomy, so that they can confidently take on whatever comes their way? Getting Things Done for Teens will train the next generation to overcome these obstacles and flourish by coaching them to use the internationally renowned Getting Things Done methodology. In its two editions, David Allen's classic has been translated into dozens of languages and sold over a million copies, establishing itself as one of the most influential business books of its era, and the ultimate book on personal organization. Getting Things Done for Teens will adapt its lessons by offering a fresh take on the GTD methodology, framing life as a game to play and GTD as the game pieces and strategies to play your most effective game. It presents GTD in a highly visual way and frames the methodology as not only as a system for being productive in school, but as a set of tools for everyday life. Getting Things Done for Teens is the how-to manual for the next generation - a strategic guidebook for creating the conditions for a fruitful and effective future.

Greater Than Goals. More Powerful Than Habits. Discover Your Streaks! Most of us have a vision for ourselves and who we want to be: a top-notch professional in our field; a fantastic parent and friend; a physically fit, healthy person; someone who sets and achieves goals in multiple areas of life. But, amid the busy-ness of our days and all the competing demands, we often fall short of our hopes for ourselves. How could we possibly fit in another activity to become the person we've always dreamed we could be? In this practical, step-by-step guide, authors Jeffery Downs and Jami Downs show you how, by introducing the art of streaking (not that kind!) to gain mastery in whatever area you choose to improve. To streak is to deliberately select a laughably simple activity - such as writing one sentence a day, doing seven push-ups a week, making one cold call a month - to repeat and record it over time, and to build a community around it as you do. As you create this structure for consistent wins, your actions align with your vision for yourself, and your confidence grows. Drawing on examples from winning athletes and teams, businesses, and communities to demonstrate the laws of streaking, the authors reveal how to choose exactly the right activities that will propel you forward. Streaking reveals a tried and true methodology and the key strategies to progress in your life, for incredible results. You will learn how to: ♦ successfully integrate daily, weekly, or monthly activities that align with your goals; ♦ overcome natural tendencies that keep you stuck; ♦ stack streaks that support your desired results, and then level up; ♦ start again (or revise your streak), if you falter; ♦ and much more. Whether you seek to improve in your professional life, in personal pursuits, or both, Streaking gives you the tools to purposely advance, to transform yourself into the person you've always wanted to be.

Explains how trust is a key catalyst for personal and organizational success in the twenty-first century, in a guide for businesspeople that demonstrates how to inspire trust while overcoming bureaucratic obstacles.

Execution

The 4 Disciplines of Execution is a simple, repeatable, and proven formula for executing on your most important strategic priorities in the midst of the whirlwind of busyness. By following these disciplines, educators can produce breakthrough results.

In the 7 Habits series, international bestselling author Stephen R. Covey showed us how to become as effective as it is possible to be. In his long-awaited new book, THE 8th HABIT, he opens up an entirely new dimension of human potential, and shows us how to achieve greatness in any position and any venue. All of us, Covey says, have within us the means for greatness. To tap into it is a matter of finding the right balance of four human attributes: talent, need, conscience and passion. At the nexus of these four attributes is what Covey calls voice - the unique, personal significance we each possess. Covey exhorts us all to move beyond effectiveness into the realm of greatness - and he shows us how to do so, by engaging our strengths and locating our powerful, individual voices. Why do we need this new habit? Because we have entered a new era in human history. The world is a profoundly different place than when THE 7 HABITS OF HIGHLY EFFECTIVE PEOPLE was originally published in 1989. The challenges and complexity we face today are of a different order of magnitude. We enjoy far greater autonomy in all areas of our lives, and along with this freedom comes the expectation that we will manage ourselves, instead of being managed by others. At the same time, we struggle to feel engaged, fulfilled and passionate. Tapping into the higher reaches of human genius and motivation to find our voice requires a new mindset, a new skill-set, a new tool-set - in short, a whole new habit.

After writing a successful memoir, Donald Miller's life stalled. During what should have been the height of his success, he found himself unwilling to get out of bed, avoiding responsibility, even questioning the meaning of life. But when two movie producers proposed turning his memoir into a movie, he found himself launched into a new story filled with risk, possibility, beauty, and meaning. A Million Miles in a Thousand Years chronicles Miller's rare opportunity to edit his life into a great story, to reinvent himself so nobody shrugs their shoulders when the credits roll. Through heart-wrenching honesty and hilarious self-inspection, Donald Miller takes readers through the life that emerges when it turns from boring reality into meaningful narrative. Miller goes from sleeping all day to riding his bike across America, from living in romantic daydreams to fearful encounters with love, from wasting his money to founding a nonprofit with a passionate cause. Guided by a host of outlandish but very real characters, Miller shows us how to get a second chance at life the first time around. A Million Miles in a Thousand Years is a rare celebration of the beauty of life.

The Four Disciplines of Execution is about a simple, proven formula for reaching the goals you want to reach as a business or individual. In Covey's experience, the thing that most undermines the ability to execute goals is what he calls the Whirlwind: those urgent tasks that must be done simply to keep an organization alive. As Covey shows, the only way to execute new, important goals is to separate those goals from the Whirlwind. The Four Disciplines allow leaders to create a strategy that requires a change in behaviour, since only by ensuring that everyone on the team understands the goal, knows what to do to reach it and knows whether progress is being made, will a leader produce consistent breakthrough results while sustaining the urgent work of the Whirlwind. The Four Disciplines of Execution are: 1. Focus on the Wildly Important; 2. Act on the Lead Measures; 3. Keep a Compelling Scoreboard; 4. Create a Cadence of Accountability. For more than a decade FranklinCovey has been studying what it takes to achieve important goals, and in this book they share success stories from a wide range of companies that have implemented the Four Disciplines to result in greater profits, increased market share and improved customer satisfaction. This way of thinking is essential to any company that wants to not only weather, but thrive in this economy.

An introduction to leadership draws on a program developed for an elementary school to show how to apply the principles of The 7 Habits of Highly Effective People to help everyone, including young children, identify their individual talents and find ways to use them in everyday life. 500,000 first printing.

Poor people confront the state on an everyday basis all over the world. But how do they see the state, and how are these engagements conducted? This book considers the Indian case where people's accounts, in particular in the countryside, are shaped by a series of encounters that are staged at the local level, and which are also informed by ideas that are circulated by the government and the broader development community. Drawing extensively on fieldwork conducted in eastern India and their broad range of expertise, the authors review a series of key debates in development studies on participation, good governance, and the structuring of political society. They do so with particular reference to the Employment Assurance Scheme and primary education provision. Seeing the State engages with the work of James Scott, James Ferguson and Partha Chatterjee, and offers a new interpretation of the formation of citizenship in South Asia.

New York Times bestselling author and award-winning educator Ron Clark applies his successful leadership principles to the business world in this effective and accessible guidebook, perfect for any manager looking to inspire and motivate his or her team. Includes a foreword by bestselling author and FranklinCovey executive Sean Covey. Teamwork is crucial to the success of any business, and as acclaimed author and speaker Ron Clark illustrates, the members of any team are

the key to unlocking success. Imagine a company as a bus filled with people who either help or hinder a team's ability to move it forward: drivers (who steer the organization), runners (who consistently go above and beyond for the good of the organization), joggers (who do their jobs without pushing themselves), walkers (who are just getting pulled along), and riders (who hinder success and drag the team down). It's the team leader's job to recognize how members fall into these categories, encourage them to keep the "bus" moving by working together, and know when it's time to kick the riders off. In the tradition of Who Moved My Cheese? and Fish!, Move Your Bus is an accessible and uplifting business parable that illustrates Clark's expert strategies to maximize the performance of each member of a team. These easy to implement techniques will inspire employees and team leaders alike to work harder and smarter and drive the organization to succeed.

The 4 Disciplines of Execution by Chris McChesney is an excellent guide to removing the distractions of the day-to-day tasks in your day job and being able to focus on 'Wildly Important Goals' and execute these excellently. McChesney produces a straightforward and actionable step-by-step guide that could transform the way you and your team work. Great for anyone looking for a little bit of guidance in the workplace and particularly useful for anyone in a leadership position. Chris McChesney began his career working with Stephen R. Covey within the Franklin Covey organisation. McChesney has dedicated his work to helping organisations achieve the results they are after by improving their execution. His book, The 4 Disciplines of Execution has been hugely successful and was a Wall Street Journal #1 National Best Seller. McChesney has become well known for his high-energy keynote speeches and presentations. McChesney lives with his wife and has seven children. As the title suggests, McChesney outlines what he considers to be the 4 most important disciplines for executing tasks and hitting goals. This summary will cover each of the 4 disciplines and discuss how they can be enacted. The first discipline we will cover is focusing on the wildly important. Discipline two covers acting on the lead measures followed by discipline three: keeping a compelling scoreboard. Finally, we'll cover discipline four: creating a cadence of accountability. "The real enemy of execution is your day job! We call it the whirlwind. It's the massive amount of energy that's necessary just to keep your operation going on a day-to-day basis; and ironically, it's also the thing that makes it so hard to execute anything new. The whirlwind robs from you the focus required to move your team forward." Chris McChesney, Sean Covey, and Jim Huling, authors of The 4 Disciplines of Execution, are definitely on to something when they pinpoint "the whirlwind" as the main detractor of execution success. And they spend the entirety of their excellent book detailing just how to avoid the trap of the daily grind. Achieving your "wildly important goals" through mindful execution is key. Their combined business experience is impressive. All leaders at Franklin Covey with decades of business know-how, these guys "completed more than fifteen hundred implementations of the 4 Disciplines (4DX) before they were ready to write this book" and they have created a set of tools that can be useful for a single person, small business, or large international company. It doesn't hurt that "4 Disciplines" is a #1 business bestseller recommended by The Wall Street Journal. Or, that the book leads with pages of endorsements by the likes of author Stephen R. Covey, and CEOs of companies like Kroger, Wegmans, and the Campbell Soup Company, and even Nobel Peace Prize Winner, Mohammed Yunus. This is an impressive book, years in the making. What I particularly liked about this book is that it is about taking action on your strategic goals, not developing more theory. There are four clear roadmaps to help you overcome the "whirlwind" of the day-to-day work that keeps leaders, and teams, from executing the programs that drive real change. The Four Disciplines are: Focus on the Wildly Important. Act on the Lead Measures. Keep a Compelling Scoreboard. Create a Cadence of Accountability. So, how do you begin to create the mindset that will help you take action on the four? Here is a Preview of What You Will Get: - A Full Book Summary - An Analysis - Fun quizzes - Quiz Answers - Etc.
