

## Estate Planning Smarts 4th Edition A Practical User Friendly Action Oriented Guide

Cities shape the lives and outlooks of billions of people, yet they have been overshadowed in contemporary political thought by nation-states, identity groups, and concepts like justice and freedom. The Spirit of Cities revives the classical idea that a city expresses its own distinctive ethos or values. In the ancient world, Athens was synonymous with democracy and Sparta represented military discipline. In this original and engaging book, Daniel Bell and Avner de-Shalit explore how this classical idea can be applied to today's cities, and they explain why philosophy and the social sciences need to rediscover the spirit of cities. Bell and de-Shalit look at nine modern cities and the prevailing ethos that distinguishes each one. The cities are Jerusalem (religion), Montreal (language), Singapore (nation building), Hong Kong (materialism), Beijing (political power), Oxford (learning), Berlin (tolerance and intolerance), Paris (romance), and New York (ambition). Bell and de-Shalit draw upon the richly varied histories of each city, as well as novels, poems, biographies, tourist guides, architectural landmarks, and the authors' own personal reflections and insights. They show how the ethos of each city is expressed in political, cultural, and economic life, and also how pride in a city's ethos can oppose the homogenizing tendencies of globalization and curb the excesses of nationalism. The Spirit of Cities is unreservedly impressionistic. Combining strolling and storytelling with cutting-edge theory, the book encourages debate and opens up new avenues of inquiry in philosophy and the social sciences. It is a must-read for lovers of cities everywhere. In a new preface, Bell and de-Shalit further develop their idea of "civicism," the pride city dwellers feel for their city and its ethos over that of others.

Covers such issues as alternatives to incorporation, tax-laws, record keeping, trademarks, Internet business, sexual-harassment, firing, and collections

Annotation Over the past 10 years, distributed systems have become more fine-grained. From the large multi-million line long monolithic applications, we are now seeing the benefits of smaller self-contained services. Rather than heavy-weight, hard to change Service Oriented Architectures, we are now seeing systems consisting of collaborating microservices. Easier to change, deploy, and if required retire, organizations which are in the right position to take advantage of them are yielding significant benefits. This book takes an holistic view of the things you need to be cognizant of in order to pull this off. It covers just enough understanding of technology, architecture, operations and organization to show you how to move towards finer-grained systems.

The essential interaction design guide, fully revised and updated for the mobile age About Face: The Essentials of Interaction Design, Fourth Edition is the latest update to the book that shaped and evolved the landscape of interaction design. This comprehensive guide takes the worldwide shift to smartphones and tablets into account. New information includes discussions on mobile apps, touch interfaces, screen size considerations, and more. The new full-color interior and unique layout better illustrate modern design concepts. The interaction design profession is blooming with the success of design-intensive companies, priming customers to expect "design" as a critical ingredient of marketplace success. Consumers have little tolerance for websites, apps, and devices that don't live up to their expectations, and the responding shift in business philosophy has become widespread. About Face is the book that brought interaction design out of the research labs and into the everyday lexicon, and the updated Fourth Edition continues to lead the way with ideas and methods relevant to today's design practitioners and developers. Updated information includes: Contemporary interface, interaction, and product design methods Design for mobile platforms and consumer electronics State-of-the-art interface recommendations and up-to-date examples Updated Goal-Directed Design methodology Designers and developers looking to remain relevant through the current shift in consumer technology habits will find About Face to be a comprehensive, essential resource.

Get a head start evaluating Windows 10--with technical insights from award-winning journalist and Windows expert Ed Bott. This guide introduces new features and capabilities, providing a practical, high-level overview for IT professionals ready to begin deployment planning now. This edition was written after the release of Windows 10 version 1511 in November 2015 and includes all of its enterprise-focused features. The goal of this book is to help you sort out what's new in Windows 10, with a special emphasis on features that are different from the Windows versions you and your organization are using today, starting with an overview of the operating system, describing the many changes to the user experience, and diving deep into deployment and management tools where it's necessary.

In the tradition of Being Digital and The Tipping Point, Steven Johnson, acclaimed as a "cultural critic with a poet's heart" (The Village Voice), takes readers on an eye-opening journey through emergence theory and its applications. A NEW YORK TIMES NOTABLE BOOK A VOICE LITERARY SUPPLEMENT TOP 25 FAVORITE BOOKS OF THE YEAR AN ESQUIRE MAGAZINE BEST BOOK OF THE YEAR Explaining why the whole is sometimes smarter than the sum of its parts, Johnson presents surprising examples of feedback, self-organization, and adaptive learning. How does a lively neighborhood evolve out of a disconnected group of shopkeepers, bartenders, and real estate developers? How does a media event take on a life of its own? How will new software programs create an intelligent World Wide Web? In the coming years, the power of self-organization -- coupled with the connective technology of the Internet -- will usher in a revolution every bit as significant as the introduction of electricity. Provocative and engaging, Emergence puts you on the front lines of this exciting upheaval in science and thought.

In this groundbreaking bestseller, Lundy Bancroft—a counselor who specializes in working with abusive men—uses his knowledge about how abusers think to help women recognize when they are being controlled or devalued, and

to find ways to get free of an abusive relationship. He says he loves you. So...why does he do that? You've asked yourself this question again and again. Now you have the chance to see inside the minds of angry and controlling men—and change your life. In *Why Does He Do That?* you will learn about: □ The early warning signs of abuse □ The nature of abusive thinking □ Myths about abusers □ Ten abusive personality types □ The role of drugs and alcohol □ What you can fix, and what you can't □ And how to get out of an abusive relationship safely □ This is without a doubt the most informative and useful book yet written on the subject of abusive men. Women who are armed with the insights found in these pages will be on the road to recovering control of their lives. □□ Jay G. Silverman, Ph.D., Director, Violence Prevention Programs, Harvard School of Public Health

"At the very time the need for effective leadership is reaching critical proportions, Michael Fullan's *Leading in a Culture of Change* provides powerful insights for moving forward. We look forward to sharing it with our grantees." --Tom Vander Ark, executive director, Education, Bill and Melinda Gates Foundation "Fullan articulates clearly the core values and practices of leadership required at all levels of the organization. Using specific examples, he convinces us that the key change principles are equally critical for leadership in business and education organizations." --John Evans, chairman, Torstar Corporation "In *Leading in a Culture of Change*, Michael Fullan deftly combines his expertise in school reform with the latest insights in organizational change and leadership. The result is a compelling and insightful exposition on how leaders in any setting can bring about lasting, positive, systemic change in their organizations." --John Alexander, president, Center for Creative Leadership "Michael Fullan's work is remarkable. He masterfully captures how leaders can significantly improve their learning and performance, even in the uncontrollable, chaotic circumstances in which they practice. A tour de force." --Anthony Alvarado, chancellor of instruction, San Diego City Schools "Too often schools and businesses are seen as separate and foreign places. Michael Fullan blends the best of knowledge from each into an exemplary template for improving leadership in both." --Terrence E. Deal, coauthor of *Leading with Soul Business*, nonprofit, and public sector leaders are facing new and daunting challenges--rapid-paced developments in technology, sudden shifts in the marketplace, and crisis and contention in the public arena. If they are to survive in this chaotic environment, leaders must develop the skills they need to lead effectively no matter how fast the world around them is changing. *Leading in a Culture of Change* offers new and seasoned leaders' insights into the dynamics of change and presents a unique and imaginative approach for navigating the intricacies of the change process. Michael Fullan--an internationally acclaimed expert in organizational change--shows how leaders in all types of organizations can accomplish their goals and become exceptional leaders. He draws on the most current ideas and theories on the topic of effective leadership, incorporates case examples of large scale transformation, and reveals a remarkable convergence of powerful themes or, as he calls them, the five core competencies. By integrating the five core competencies--attending to a broader moral purpose, keeping on top of the change process, cultivating relationships, sharing knowledge, and setting a vision and context for creating coherence in organizations--leaders will be empowered to deal with complex change. They will be transformed into exceptional leaders who consistently mobilize their compatriots to do important and difficult work under conditions of constant change.

Let's Talk About Estate Planning

Entrepreneurship

Why a Will is Not the Way to Avoid Probate, Protect Heirs, and Settle Estates

For junior/senior/graduate-level courses in Entrepreneurship, New Venture Creation, and Small Business Strategy. Based on the premise that entrepreneurship can be studied systematically, this text offers a comprehensive presentation of the best current theory and practice. It takes a resource-based point-of-view, showing how to acquire and use resources and assets for competitive advantage. FOCUS ON THE NEW ECONOMY \* NEW-Use of the Internet-Integrated throughout with special treatment in Ch. 6. \* Demonstrates to students how the new economy still follows many of the rigorous rules of economics, and gives them examples of business-to-business and business-to-customer firms so that they can build better business models. \* NEW-2 added chapters on e-entrepreneurship-Covers value pricing; market segmentation; lock-in; protection of intellectual property; and network externalities. \* Examines the new economy and the types of resources, capabilities, and strategies that are needed for success in the Internet world. \* Resource-based theory-Introduced in Ch. 2 and revisited in each subsequent chapter to help tie concepts together. \* Presents an overarching framework, and helps students focu

A gripping and page-turning thriller that explores themes of power, information, secrecy and war in the twentieth century. From the author of the three-volume historical epic 'The Baroque Cycle' and *Seveneves*. In his legendary, sprawling masterpiece, Neal Stephenson hacks into the secret histories of nations and the private obsessions of men, decrypting with dazzling virtuosity the forces that shaped this century. In 1942, Lawrence Pritchard Waterhouse - a mathematical genius and young Captain in the U.S. Navy - is assigned to Detachment 2702, an outfit so secret that only a handful of people know it exists. Some of those people have names like Churchill and Roosevelt. Their mission is to keep the Nazis ignorant of the fact that Allied Intelligence has cracked the enemy's fabled Enigma code. Waterhouse is flung into a cryptographic chess match against his German counterpart - one where every move determines the fate of thousands. In the present day, Waterhouse's crypto-hacker grandson, Randy, is attempting to create a "data haven" in Southeast Asia where encrypted data can be stored and exchanged free of repression and scrutiny. Joining forces with the tough-as-nails Amy, Randy attempts to secretly salvage a sunken Nazi submarine that holds the key to keeping the dream of a data haven afloat. But their scheme brings to light a massive conspiracy with its roots in Detachment 2702 - and an unbreakable Nazi code called Arethusa. There are two ways this could go: towards unimaginable riches and a future of personal and digital liberty - or towards a totalitarian nightmare... Profound and prophetic, hypnotic and hyperactive, *Cryptonomicon* is a work of great art, thought and creative daring, the product of a ingenious imagination working with white-hot intensity.

Note about this ebook: This ebook exploits many advanced capabilities with images, hypertext, and interactivity and is optimized for EPUB3-compliant book readers,

especially Apple's iBooks and browser plugins. These features may not work on all ebook readers. We organize things. We organize information, information about things, and information about information. Organizing is a fundamental issue in many professional fields, but these fields have only limited agreement in how they approach problems of organizing and in what they seek as their solutions. The Discipline of Organizing synthesizes insights from library science, information science, computer science, cognitive science, systems analysis, business, and other disciplines to create an Organizing System for understanding organizing. This framework is robust and forward-looking, enabling effective sharing of insights and design patterns between disciplines that weren't possible before. The Professional Edition includes new and revised content about the active resources of the "Internet of Things," and how the field of Information Architecture can be viewed as a subset of the discipline of organizing. You'll find: 600 tagged endnotes that connect to one or more of the contributing disciplines Nearly 60 new pictures and illustrations Links to cross-references and external citations Interactive study guides to test on key points The Professional Edition is ideal for practitioners and as a primary or supplemental text for graduate courses on information organization, content and knowledge management, and digital collections. FOR INSTRUCTORS: Supplemental materials (lecture notes, assignments, exams, etc.) are available at <http://disciplineoforganizing.org>. FOR STUDENTS: Make sure this is the edition you want to buy. There's a newer one and maybe your instructor has adopted that one instead.

The Global Innovation Index 2020 provides detailed metrics about the innovation performance of 131 countries and economies around the world. Its 80 indicators explore a broad vision of innovation, including political environment, education, infrastructure and business sophistication. The 2020 edition sheds light on the state of innovation financing by investigating the evolution of financing mechanisms for entrepreneurs and other innovators, and by pointing to progress and remaining challenges – including in the context of the economic slowdown induced by the coronavirus disease (COVID-19) crisis.

The book's comprehensive support package further helps you prepare each student for managerial success. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.**

Welcome to the premiere edition of "The Fishing Smart Anywhere Handbook for Salt Water & Fresh Water." As an award-winning author, I embrace (along with my companion of over forty years, Donna) a number of water-related activities. Sixty years of experience went into writing this concise yet comprehensive guide. If I had to sum up this handbook in a single word, it is all about having Fun. Be it spin casting, bait casting or the supposed arcane art of fly casting, together we will target new tackle, examine time-tested techniques, and apply innovative approaches to these three basic methods—methods that will give the angler the added edge. Whether saltwater or freshwater fishing, clamming, crabbing, kayaking, cooking seafood or smoking fish, selecting the proper equipment is of paramount importance. The information presented will prove priceless, providing you with practical advice, serious savings, unprecedented quality and value. That's a promise, not hyperbole. Get it right the first time, and avoid unnecessary aggravation and expense. Taking fresh fish and shellfish from our seas and shores is rewarding, for there is a world of delectable fare that awaits you. Perfected over the course of many years, I present gourmet recipes that will delight you, your family and friends. Written in an informative, entertaining and often humorous fashion, this handbook is for the beginner, intermediate as well as the advanced outdoors enthusiast, serving as either a condensed treatment of a subject or a concise reference. I offer you

a unique approach in that this information is superbly blended and balanced to accommodate all levels of experience—from introducing and instructing newcomers to many enjoyable and rewarding water-related activities, to presenting veteran outdoorsmen/women with creative techniques. Residing on the water, Donna and I live, sleep, breathe and share our outdoor experiences with you. Having spent sixty years plying the waters along the eastern seaboard, we have made the East End of Long Island our home and playground for the past twenty-three years. We have been praised by Angelo Peluso—outdoors author, columnist and avid fisherman—as the "Best writing and fishing tag-team on Long Island." I invite you to join Donna and me on our continual journey. Living the good life is yours for the taking.

Deborah Jacobs quit the job from hell, rented her house and planned to Airbnb her way through France. Alternately humorous and poignant, this inspiring memoir chronicles her misadventures as she and her husband cook in quirky kitchens, struggle to speak French and shop like locals in outdoor markets. With candor and optimism, Jacobs transports readers from the grape harvest in the Loire Valley to an exuberant chile pepper festival in Basque Country and, ultimately, to Paris, where she witnesses history in the making. En route, she does the pintxo bar crawl in San Sebastián, Spain, develops an affinity for sheep's milk cheese and cultivates new friendships.  
Four Seasons in a Day, an expression used to describe the changeable weather in the Pyrenees, also captures the author's extreme resilience. Her grit and determination in the face of every obstacle give us the courage to chart our own course, carve out a new life and embrace the unexpected.

FRAUD AUDITING AND FORENSIC ACCOUNTING  
With the responsibility of detecting and preventing fraud falling heavily on the accounting profession, every accountant needs to recognize fraud and learn the tools and strategies necessary to catch it in time. Providing valuable information to those responsible for dealing with prevention and discovery of financial deception, *Fraud Auditing and Forensic Accounting, Fourth Edition* helps accountants develop an investigative eye toward both internal and external fraud and provides tips for coping with fraud when it is found to have occurred. Completely updated and revised, the new edition presents:  
Brand-new chapters devoted to fraud response as well as to the physiological aspects of the fraudster  
A closer look at how forensic accountants get their job done  
More about Computer-Assisted Audit Tools (CAATs) and digital forensics  
Technological aspects of fraud auditing and forensic accounting  
Extended discussion on fraud schemes  
Case studies demonstrating industry-tested methods for dealing with fraud, all drawn from a wide variety of actual incidents  
Inside this book, you will find step-by-step keys to fraud investigation and the most current methods for dealing with financial fraud within your organization. Written by recognized experts in the field of white-collar crime, this Fourth Edition provides you, whether you are a beginning forensic accountant or an experienced investigator, with industry-tested methods for detecting, investigating, and preventing financial schemes.

***"If you are a member of a blended family, this is the handbook to enable your estate plan to assure that your financial wealth will lead to your family's future well-***

**being. Read it, follow its wisdom and practices, and smile." —James (Jay) E. Hughes Jr, Author of Complete Family Wealth and Family: The Compact Among Generations**

As parents, we spend our lives caring and providing for our children. However, many of us lack the foresight to create a plan that will ensure our children are supported even after we are gone. Parents neglect to handle their estates and affairs during their lifetime and leave their grieving children drowning in paperwork and tough decisions. It is even more demanding and grueling for stepchildren and members of blending families to sort through these estates. As a member of a blended family himself, tax attorney Paul Hood has pooled his personal and professional knowledge to create this comprehensive guide to estate planning for blended families. In Yours, Mine & Ours, Hood offers real-world advice while cover crucial topics such as:

- Property Ownership
- Documents for Planning
- Important Payers in Planning
- Challenges One will Face
- Words of Wisdom

When nearly 70% of estate plans yield unfavorable results for the family, the need for a meticulous estate plan cannot be overstated. Hood's guide to estate planning will allow individuals to rest assured that their families are provided for thoroughly.

An updated third edition of the most comprehensive guide to small business success Whether you're a novice entrepreneur or a seasoned pro, The Small Business Bible offers you everything you need to know to build and grow your dream business. It shows you what really works (and what doesn't!) and includes scores of tips, insider information, stories, and proven secrets of success. This Third Edition includes entirely new chapters devoted to social media, mobility and apps, and new trends in online discounting and group buying that are vital to small business owners everywhere. New chapters include: How to use Facebook, Twitter, and other social media tools to engage customers and potential stakeholders How to generate leads and win strategic partnerships with LinkedIn How to employ videos and YouTube to further your brand What you need to know about Groupon and group discount buying What mobile marketing can do for your business Give your small business its best shot by understanding the best and latest small business strategies, especially in this transformative and volatile period. The Small Business Bible offers every bit of information you'll need to know to succeed.

A guide to low tech computer hacking covers such topics as social engineering, locks, penetration testing, and information security.

In Don't Mess It Up: How Founders and Their Successors Can Avoid the Clichés That Inhibit Growth, author and six-time second CEO Les Trachtman offers his expertise on the most effective ways to successfully hand off your company to a worthy successor. He also has advice for those who are inheriting a business and want to take it to the next level, as well as for boards who are dealing with these leadership transitions. In his direct, no-nonsense approach, Les shows readers how seemingly harmless business clichés such as "get it right" and "be careful" can have a detrimental effect on a company's future by conveying that such imperative ingredients such as risk and innovation are things to now be avoided. Readers will learn how to:

- Understand the metamorphosis required to transition from great founder to great CEO
- Know when, and if, it's time to replace yourself
- Pick the right successor
- Prepare yourself and your company for the fragile transition
- Create a successful CEO transition
- Separate yourself from the company

There is likely no one more experienced in founder transitions than Les Trachtman. He has been an innovative and respected successor at six different companies; let his hard-won advice guide you through your transition and toward success.

150 Fun and Challenging Brain Teasers

How Founders and Their Successors Can Avoid the Clichés That Inhibit Growth

Easy-to-apply, scientifically-based approaches for engaging students in the classroom Cognitive scientist Dan Willingham focuses his acclaimed research on the biological and cognitive basis of learning. His book will help teachers improve their practice by explaining how they and their students think and learn. It reveals the importance of story, emotion, memory, context, and routine in building knowledge and creating lasting learning experiences. Nine, easy-to-understand principles with clear applications for the classroom Includes surprising findings, such as that intelligence is malleable, and that you cannot develop "thinking skills" without facts How an understanding of the brain's workings can help teachers hone their teaching skills "Mr. Willingham's answers apply just as well outside the classroom. Corporate trainers, marketers and, not least, parents

-anyone who cares about how we learn-should find his book valuable reading." –Wall Street Journal

The misconceptions surrounding the last will and testament need to be put to rest: Wills benefit lawyers. Trusts benefit you. Period. Too often lawyers sell wills to clients only to sit back and wait to sell their probate services to their client's heirs. Modern estate planning should utilize the Living Trust as the effective, efficient, and inexpensive alternative to a will. *Living Trusts for Everyone: Why a Will is Not the Way to Avoid Probate, Protect Heirs, and Settle* explains why wills are not the best way to handle an estate and details the many advantages trusts have over wills in not only eliminating probate, but protecting your assets for your heirs. Anyone with minor children, disabled beneficiaries, blended families, or spendthrift heirs must have a trust to be sure the assets left behind are put to good use, and that your intentions are carried out. Lawyers may have vested interests in perpetuating the probate system, but this book will explain why legal services are not needed to do the clerical work in settling a trust after death. No legal jargon or confusing double-speak, just specific step-by-step instructions and sample form letters to settle a trust are included to take the mystery out of the process. This is not a do-it-yourself book and it doesn't try to cram every type of trust onto its pages. *Living Trusts for Everyone* explains in specific terms what benefit a trust will have for you and gives you the tools to settle a loved one's trust with no lawyers and no expense. For those who already have a trust, there is a list of what to look for to see if your trust is any good, or if it needs to be updated. Trust seminars are examined with warnings on what to look out for in setting up your trust. Everyone who cares about what happens to their assets at death should read *Living Trusts for Everyone: Why a Will is Not the Way to Avoid Probate, Protect Heirs, and Settle!* Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

Award-winning Bloomberg television host Betty Liu compiles the wisdom of the world's best CEOs into a fun, insightful, and practical guide for success. Betty Liu is famous the world over for asking the tough questions of today's most successful people—and for her uncanny ability to get straight answers where others have failed. As an award-winning financial journalist and Bloomberg Television anchor, Betty has sat down with billionaires, CEOs, politicians, and celebrities to get their views from the top. Now, in *Work Smarts*, Betty helps you get to the top by distilling the wisdom of some of the most prominent CEOs in the country. Warren Buffett, Jamie Dimon, Elon Musk, Sam Zell, John Chambers, Anne Mulcahy, and many more spill the beans on what it really takes to be successful, giving practical, "from the street" advice on how to get ahead in your career. Packed with candid, often humorous, revelations from leaders in the world of finance, technology, retail, telecom, entertainment, and more, *Work Smarts* delivers priceless guidance on: How to really network The importance of being likable What your boss is thinking when you ask for a raise Winning every negotiation Bouncing back from a firing or layoff Thinking like a true entrepreneur The secret skill every successful person needs Overcoming fear Being a standout job candidate Knowing what's holding you back Knowing what can propel you forward Why sometimes being good at your job just isn't enough Combining the trademark, hands-on approach of one of today's most respected financial journalists with the wisdom of the world's most successful business leaders, *Work Smarts* is a gold mine of real-world insight and advice on how to get ahead in business and forge a career that maximizes all your best talents and skills.

About Face

Designing Fine-Grained Systems

*Praise for THE NEW RULES OF RETIREMENT "As a Wharton graduate, money manager, Chief Financial Officer, and Certified Financial Analyst, I didn't think I needed help in making investment choices and planning for my retirement. I was wrong. I have been a subscriber to Retirement Watch since 1997. I trust Bob Carlson completely and follow his investment, tax, and planning advice personally." --Sandy Kagan, CFA CFO Partner, Tatum Partners "A clear, practical, and wisely unconventional guide to the new world of retirement." --Humberto Cruz Nationally syndicated financial columnist, Tribune Media Services "Bob Carlson does a magnificent job preparing readers for the many challenging issues they will face over the next several decades. Retirees can no longer count on generous asset returns and employer-provided defined benefit plans. Bob provides readers with creative approaches for contending with these challenges to help ensure financially and emotionally secure 'freedom years'." --Lawrence E. Kochard, PhD, CFA Chief Investment Officer, Georgetown University "Bob Carlson shows that three trends--demographics (baby boomers), increasing longevity, and fewer offspring--have changed forever the landscape facing America's retirees. Stereotype retirement based on Social Security and employer pensions is out; making ends meet on your own is in. Better get yourself ready--and you can do so by reading this book." --James C. Miller III Former U.S. Budget Director, Chairman of The CapAnalysis Group, LLC*

*The score would be an easy one -- if it weren't for the women involved. Out of work and dead broke, Lee Scarborough is a long way from his days as a football hero when he meets the sunbathing Diana James -- an innocent-looking creature with a plan to make a fortune. A few months' back, her lover embezzled \$120,000 from a bank, but disappeared before she could get her hands on the cash. The police think he's fled the state, but Diana is sure he's dead, and knows who killed him: his wife, Madelon Butler, a sadistic drunk who is capable of anything. The cash is inside Madelon's house, waiting to be stolen a third time, and all Diana needs is a patsy. Scarborough fits the bill. The plan sails along smoothly until Scarborough meets Mrs. Butler. By the time his luck runs out, he'd rather face a dozen hulking linebackers than these two beauties, who have been driven to a frenzy by jealousy, greed, and lust.*

*A plain-English guide to a stressful topic, with examples from the estate plans of Paul Newman, Jacqueline Kennedy Onassis, Michael Jackson and others. "To-Do Lists" after each chapter leave no excuses for procrastinators.*

*The bestselling JavaScript reference, now updated to reflect changes in technology and best practices As the most comprehensive book on the market, the JavaScript Bible is a classic bestseller that keeps you up to date on the latest changes in JavaScript, the leading technology for incorporating interactivity into Web pages. Part tutorial, part reference, this book serves as both a learning tool for building new JavaScript skills as well as a detailed reference for the more experienced JavaScript user. You'll get up-to-date coverage on the latest JavaScript practices that have been implemented since the previous edition, as well as the most updated code listings that reflect new concepts. Plus, you'll learn how to apply the latest JavaScript exception handling and custom object techniques. Coverage includes:*

*JavaScript's Role in the World Wide Web and Beyond Developing a Scripting Strategy Selecting and Using Your Tools JavaScript Essentials Your First JavaScript Script Browser and Document Objects Scripts and HTML Documents Programming Fundamentals Window and Document Objects Forms and Form Elements Strings, Math, and Dates Scripting Frames and Multiple Windows Images and Dynamic HTML The String Object The Math, Number, and Boolean Objects The Date Object The Array Object JSON - Native JavaScript Object Notation E4X - Native XML Processing Control Structures and Exception Handling JavaScript Operators Function Objects and Custom Objects Global Functions and Statements Document Object Model Essentials Generic HTML Element Objects Window and Frame Objects Location and History Objects Document and Body Objects Link and Anchor*

*Objects Image, Area, Map, and Canvas Objects Event Objects Practical examples of working code round out this new edition and contribute to helping you learn JavaScript quickly yet thoroughly.*

*A former Wall Street quant sounds an alarm on the mathematical models that pervade modern life - and threaten to rip apart our social fabric We live in the age of the algorithm. Increasingly, the decisions that affect our lives - where we go to school, whether we get a loan, how much we pay for insurance - are being made not by humans, but by mathematical models. In theory, this should lead to greater fairness: everyone is judged according to the same rules, and bias is eliminated. And yet, as Cathy O'Neil reveals in this urgent and necessary book, the opposite is true. The models being used today are opaque, unregulated, and incontestable, even when they're wrong. Most troubling, they reinforce discrimination. Tracing the arc of a person's life, O'Neil exposes the black box models that shape our future, both as individuals and as a society. These "weapons of math destruction" score teachers and students, sort CVs, grant or deny loans, evaluate workers, target voters, and monitor our health. O'Neil calls on modellers to take more responsibility for their algorithms and on policy makers to regulate their use. But in the end, it's up to us to become more savvy about the models that govern our lives. This important book empowers us to ask the tough questions, uncover the truth, and demand change.*

*Will your estate plan fail? If you don't understand how it works, you could dismantle it yourself! Are you tempted to take free advice about planning? Do you avoid reading the fine print? Will joint ownership simplify or complicate your plan? What happens to assets left directly to a minor? Know it or blow it. Let's Talk About Estate Planning defogs estate planning through invented, but true to life, conversations between friends, or between clients and fictional lawyer Rebecca Dalton. Some of these exchanges expose major errors, not all of them fixable. This entertaining and informative treatment of estate planning, wills, trusts, probate, beneficiary designations, titling of assets, powers of attorney, and gifts illustrates how these pieces fit together. Read it, and you will say "NOW I understand my estate plan!" Let's Talk About Estate Planning also discusses managing your lawyer, the usefulness of tabular and pictorial representations of your estate plan, and how to ease estate administration for your heirs and beneficiaries when you are gone. A glossary and some handy websites are included.*

*There are those who think the goal of investing is to beat the market and amass as much wealth as possible, that street smarts and hard work ensure investment success, and that the road to happiness is paved with more of everything. And then there are those who get it. Want a more prosperous, less stressful financial life? Jonathan Clements, longtime personal finance columnist for The Wall Street Journal, is here to help. His goal: to provide readers with a coherent way to think about their finances, so they worry less about money, make smarter financial choices and squeeze more happiness out of the dollars that they have. How to Think About Money is built around five key ideas: Money can buy happiness, but we need to spend with great care. Most of us will enjoy an extraordinarily long life--and that has profound financial implications. We are hardwired for financial failure, so sensible money management takes great mental strength. We need to bring order to our financial life--by focusing on our paycheck, or lack thereof. If we want to add to our wealth, we should strive to minimize the subtractions." Now why didn't I think of that? That's what you'll ask yourself after you read Jonathan Clements's fine new book. Its beauty lies in the commonsense and wisdom that is summed up in just five simple steps that will help you to earn your financial independence. Easy to understand, essential to follow."--John C. Bogle, founder, The Vanguard Group" Jonathan Clements brings his intelligence, insight and commonsense to How to Think About Money, which is packed with wisdom and great guidance. Read it and reap the rewards in the years and decades ahead."--Eric Tyson, author of Personal Finance for Dummies and Investing for Dummies "How to Think About Money is financial feng shui --a blueprint for harmonizing all the aspects of personal finance into a balanced way of approaching and managing money. I found myself measuring my own attitudes and beliefs against the yardsticks in Jonathan Clements's book, and was pleased to find that we're on the same page. Anyone who feels overwhelmed by the challenges of today's world can benefit from Clements's advice on how to make smart financial choices, as well as how to develop, in his words, a 'coherent way to think about their financial life'."--Janet Bodnar, editor, Kiplinger's Personal Finance magazine" Concise, important and true. Jonathan Clements provides you a path not just to better finances, but to a better life."--Terry Burnham, finance professor, Chapman University, and author of Mean Markets and Lizard Brains" Jonathan Clements writes so well and thinks so clearly that even financial planning, saving, and wise decisions are almost fun to think through with him as our guide."--Charles Ellis, author of Winning the Loser's Game" In How to Think About Money, Jonathan Clements, one of the premier financial writers of our times, provides readers with a roadmap for a successful financial life. It's an easy read that can result in changing the way readers look at investing and life. Read it and reap."--Mel Lindauer, Forbes.com columnist and co-author of The Bogleheads' Guide to*

*Investing and The Bogleheads' Guide to Retirement Planning*"Jonathan Clements is one of the greatest financial consumer advocates of our time, not only because of his emphasis on a practical and commonsense approach to personal finance, but because his message is delivered in a welcoming, easy-to-understand manner. That approach moves his readers to take the most important step toward winning in the personal-finance world--taking ownership of one's financial life and following that with action."--Peter Mallouk, president of Creative Planning and author of *The 5 Mistakes Every Investor Makes and How to Avoid Them*
