

## Final Exam By Pauline W Chen

"The surgical interventions in these pages are dizzying, but the fact that Jay Wellons can write as well as he can operate provides a whole other level of amazement."—Ann Patchett, #1 New York Times bestselling author of Commonwealth "A powerful and moving account of the intense joys and sorrows of being a pediatric neurosurgeon."—Henry Marsh, New York Times bestselling author of Do No Harm: Stories of Life, Death, and Brain Surgery Tumors, injuries, ruptured vascular malformations—there is almost no such thing as a non-urgent brain surgery when it comes to kids. For a pediatric neurosurgeon working in the medical minefield of the brain—in which a single millimeter in every direction governs something that makes us essentially human—every day presents the challenge, and the opportunity, to give a new lease on life to a child for whom nothing is yet fully determined and all possibilities still exist. In All That Moves Us, Dr. Jay Wellons pulls back the curtain to reveal the profoundly moving triumphs, haunting complications, and harrowing close calls that characterize the life of a pediatric neurosurgeon, bringing the high-stakes drama of the operating room to life with astonishing candor and honest compassion. Reflecting on lessons learned over twenty-five years and thousands of operations completed on some of the most vulnerable and precious among us, Wellons recounts in gripping detail the moments that have shaped him as a doctor, as a parent, and as the only hope for countless patients whose young lives are in his hands. Wellons shares scenes of his early days as the son of a military pilot, the years of grueling surgical training, and true stories of what it's like to treat the brave children he meets on the threshold between life and death. From the little boy who arrived at the hospital near death from a gunshot wound to the head, to the eight-year-old whose shredded nerves were repaired using suture as fine as human hair, to the brave mother-to-be undergoing fetal spinal cord surgery, All That Moves Us is an unforgettable portrait of the countless human dramas that take place in a busy modern children's hospital—and a meditation on the marvel of life as seen from under the white-hot lights of the operating room.

'This is a book for doctors and patients – that is, the lot of us – to relish.' – Thomas Kennealy It is worth writing that many doctors have plumbed the depths and richness of their experiences and, in turn, used this to explore their patients' inner lives. Differential Diagnosis is a unique collection of fiction and non-fiction by doctor – writers that gives us a fascinating look behind the doctor's mask, and gets inside the minds of those who deal with enormous existential issues and traumatic situations on a daily basis. These stories canvass emotional experiences acutely felt by doctors: an awareness of our mortality, of how humanity interplays with medicine, of the weight of responsibility carried by the profession. They bring into sharp focus, in many cases, the point of view of the patient, illuminating the experience of grief, trauma, illness, and ageing that doctors witness through their work. Contributors: Ethan Canin, Nick Earls, Atul Gawande, Peter Goldsworthy, Jacinta Halloran, Sandeep Jauhar, Leah Kaminsky, Perri Klass, Robert Jay Lifton, John Murray, Danielle Ofri, Oliver Sacks, Abraham Verghese, Gabriel Weston, Irvn Yalom

DVD, entitled *Wow and Flutter*, contains recordings of concerts at the festival, held Oct. 1-2, 2004, RPI Playhouse, Rensselaer Polytechnic Institute, Troy, N.Y.

A mesmerizing biography of the brilliant and eccentric medical innovator who revolutionized American surgery and founded the country's most famous museum of medical oddities Imagine undergoing an operation without anesthesia performed by a surgeon who refuses to sterilize his tools—or even wash his hands. This was the world of medicine when Thomas Dent Mütter began his trailblazing career as a plastic surgeon in Philadelphia during the middle of the nineteenth century. Although he died at just forty-eight, Mütter was an audacious medical innovator who pioneered the use of ether as anesthesia, the sterilization of surgical tools, and a compassion-based vision for helping the severely deformed, which clashed spectacularly with the sentiments of his time. Brilliant, outspoken, and brazenly handsome, Mütter was flamboyant in every aspect of his life. He wore pink silk suits to perform surgery, added an umlaut to his last name just because he could, and amassed an immense collection of medical oddities that would later form the basis of Philadelphia's Mütter Museum. Award-winning writer Cristin O'Keefe Aptowicz vividly chronicles how Mütter's efforts helped establish Philadelphia as a global mecca for medical innovation—despite intense resistance from his numerous rivals. (Foremost among them: Charles D. Meigs, an influential obstetrician who loathed Mütter's "overly" modern medical opinions.) In the narrative spirit of *The Devil in the White City*, Dr. Mütter's Marvels interweaves an eye-opening portrait of nineteenth-century medicine with the riveting biography of a man once described as the "P. T. Barnum of the surgery room."

The Context and Coherence of Pauline Ethics

Final Exam

Dr. Mutter's Marvels

What happened to Paul after Paul? This book examines the relationships between Paul's undisputed writings, the Pastoral Epistles, and the Pauline legacy adopted and adapted by the early church. Book jacket.

reflections and insights on health, disease, and healing Now in paperback! First time, A Piece of My Mind brings together revealing personal essays that first appeared in The Journal of the American Medical Association (JAMA). These engrossing, moving vignettes—written by physicians, patients, family members, medical students, and others—offer a unique glimpse into the everyday experiences and relationships in the medical world. Baring their souls and opening their hearts, the authors share their most personal moments, stories, and observations. You'll hear from the intern who could not hide her emotions, earning reprimand from her supervisors but appreciation from her patients . . . meet an alcoholic whose indomitable spirit helped her defy all the odds . . . experience the heartbreaking comedy of a Monday morning HIV clinic . . . be inspired by the oncology social worker who found a new love of life during her own struggle with breast cancer . . . and learn from the physician who realized that by witnessing her patients' courage she became a better physician. Compelling, touching, and at times humorous, A Piece of My Mind offers a deeper understanding of physicians, patients, medicine, and the simple human act of helping another person. "These stories, based in science, are transmitted to readers . . . after filtering through a human heart . . . consistently succeeds in bridging science and the humanities." —William H. Foege, MD, Emory University

["Compelling and compassionate human drama. If you want to understand how modern medicine ticks, fasten your seat belt and spend a day in the hospital with Theresa Brown on The Shift."] Danielle Ofri, MD, author of What Doctors Feel In a book as eye-opening as it is riveting, practicing nurse and regular contributor to the New York Times Theresa Brown invites us to experience not just a day in the life of a nurse but all the life that happens in just one day on a busy teaching hospital's cancer ward. In the span of twelve hours, lives can be lost, life-altering treatment decisions made, and dreams fulfilled or irrevocably stolen. Every day, Theresa Brown holds these lives in her hands. On this day, there are four. Unfolding in real time under the watchful eyes of Theresa Brown—a dedicated nurse and an insightful chronicler of events—we are given an unprecedented view into the individual struggles as well as the larger truths about medicine in this country. By shift's end, we have witnessed something profound about hope and humanity. [This meticulous, absorbing shift-in-life account of one nurse's day on a cancer ward stands out for its honesty, clarity, and heart. Brown . . . juggles the fears, hopes, and realities of a 12-hour shift in a typical urban hospital with remarkable insight and unflinching care. Her memoir is a must-read for nurses or anyone close to one.] Publishers Weekly, starred review [An empathetic and absorbing narrative as riveting as a fiction drama.] iKirkus Reviews [I am filled with awe and gratitude for the work that the nurses like Theresa Brown do every day. She captures perfectly their central role in any patient's life!] Susan M. Love, MD, chief visionary officer, Dr. Susan Love Research Foundation, and author of Dr. Susan Love's Breast Book

In a series of reflections on the world of modern medicine, a young doctor describes how physicians must deal with the inescapable reality of death, the risks and rewards of emotional involvement, patients' expectations concerning their doctors, and her personal experiences throughout her education, residency, and practice with mortality. Reprint, 75,000 first printing.

The inspiring story of how a leading innovator in patient safety found a simple way to save countless lives. First, do no harm—doctors, nurses and clinicians swear by this code of conduct. Yet in hospitals and doctors' offices across the country, errors are made every single day - avoidable, simple mistakes that often cost lives. Inspired by two medical mistakes that not only ended in unnecessary deaths but hit close to home, Dr. Peter Pronovost made it his personal mission to improve patient safety and make preventable deaths a thing of the past, one hospital at a time. Dr. Pronovost began with simple improvements to a common procedure in the ER and ICU units at Johns Hopkins Hospital. Creating an easy five-step checklist based on the most up-to-date research for his fellow doctors and nurses to follow, he hoped that streamlining the procedure itself could slow the rate of infections patients often died from. But what Dr. Pronovost discovered was that doctors and nurses needed more than a checklist: the day-to-day environment needed to be more patient-driven and staff needed to see scientific results in order to know their efforts were a success. After those changes took effect, the units Dr. Pronovost worked with decreased their rate of infection by 70%. Today, all fifty states are implementing Dr. Pronovost's programs, which have the potential to save more lives than any other medical innovation in the past twenty-five years. But his ideas are just the beginning of the changes being made by doctors and nurses across the country making huge leaps to improve patient care. In Safe Patients, Smart Hospitals, Dr. Pronovost shares his own experience, anecdotal stories from his colleagues at Johns Hopkins and other hospitals that have made his approach their own, alongside comprehensive research-showing readers how small changes make a huge difference in patient care. Inspiring and thought provoking, this compelling book shows how one person with a cause really can make a huge difference in our lives.

Riveting Accounts Of Medical Failure And Triumph, And How Success Is Achieved In A Complex And Risk-Filled Profession The Struggle To Perform Well Is Universal, And Nowhere Is The Drive To Do Better More Important Than In Medicine, Where Lives Are On The Line With Every Decision. In His New Book, Atul Gawande Explores How Doctors Strive To Close The Gap Between Best Intentions And Best Performance In The Face Of Obstacles That Sometimes Seem Insurmountable. Gawande's Gripping Stories Of Diligence And Ingenuity Take Us To Battlefield Surgical Tents In Iraq, Delivery Rooms In Boston, A Polio Outbreak In India, And Malpractice Courtrooms In The Us. He Discusses The Ethical Dilemmas Of Doctors Participation In Lethal Injections, Examines The Influence Of Money On Modern Medicine, And Recounts The Controversious Of Land Washing. And As In All His Writing, Gawande Gives Us An Inside Look At His Own Life As A Surgeon. Offering A Firsthand Account Of Work In A Field Where Mistakes Are Both Unavoidable And Unthinkable.

A riveting exploration of the most difficult and important part of what doctors do, by Yale School of Medicine physician Dr. Lisa Sanders, author of the monthly New York Times Magazine column "Diagnosis," the inspiration for the hit Fox TV series *House, M.D.* "The experience of being ill can be like waking up in a foreign country. Life, as you formerly knew it, is on hold while you travel through this other world as unknown as it is unexpected. When I see patients in the hospital or in my office who are suddenly, surprisingly ill, what they really want to know is, 'What is wrong with me?' They want a road map that will help them manage their new surroundings. The ability to give this unerving and unfamiliar place a name, to know it—on some level—restores a measure of control, independent of whether or not that diagnosis comes attached to a cure. Because, even today, a diagnosis is frequently all a good doctor has to offer." A healthy young man suddenly loses his memory—making him unable to remember the events of each passing hour. Two patients diagnosed with Lyme disease improve after antibiotic treatment—only to have their symptoms mysteriously return. A young woman lies dying in the ICU—bleeding, jaundiced, incoherent—and none of her doctors know what is killing her. In *Every Patient Tells a Story*, Dr. Lisa Sanders takes us beside to witness the process of solving these and other diagnostic dilemmas, providing a firsthand account of the expertise and intuition that lead a doctor to make the right diagnosis. Never in human history have doctors had the knowledge, the tools, and the skills that they have today to diagnose illness and disease. And yet mistakes are made, diagnoses missed, symptoms or tests misunderstood. In this high-tech world of modern medicine, Sanders shows us that knowledge, while essential, is not sufficient to unravel the complexities of illness. She presents an unflinching look inside the detective story that marks nearly every illness—the diagnosis—revealing the combination of uncertainty and intrigue that doctors face when confronting patients who are sick or dying. Through dramatic stories of patients with baffling symptoms, Sanders portrays the absolute necessity and surprising difficulties of getting the patient's story, the challenges of the physical exam, the pitfalls of doctor-to-doctor communication, the vagaries of tests, and the near calamity of diagnostic errors. In *Every Patient Tells a Story*, Dr. Sanders chronicles the real-life drama of doctors solving these difficult medical mysteries that not only illustrate the art and science of diagnosis, but often save the patients' lives.

Leading biblical scholar James Thompson explains that Paul offers a coherent moral vision based not only on the story of Christ but also on the norms of the law. Paul did not live with a sharp dichotomy of law and gospel and recognized the continuing importance of the law. --from publisher description

Better

A Piece of My Mind

No monarchy has proved more captivating than that of the British Royal Family. Across the globe, an estimated 2.4 billion people watched the wedding of Prince William and Catherine Middleton on television. In contemporary global consumer culture, why is the British monarchy still so compelling? Rooted in fieldwork conducted from 2005 to 2014, this book explores how and why consumers around the world leverage a wide range of products, services, and experiences to satisfy their fascination with the British Royal Family brand. It demonstrates the monarchy's power as a brand whose narrative has existed for more than a thousand years, one that shapes consumer behavior and that retains its economic and cultural significance in the twenty-first century. The authors explore the myriad ways consumer culture and the Royal Family intersect across the globe, from the royal wedding to the royal family's media presence, from the royal family's role in the royal family's history to the royal family's role in the royal family's history.
