In its 114th year, Billboard remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.

Assessment dominates our lives but its good intentions often produce negative consequences. An

example that is central to this book is how current forms of assessment encourage shallow 'for-the-test' learning. It is true to say that as the volume of assessment increases, confidence in what it represents is diminishing. This book seeks to reclaim assessment as a constructive activity which can encourage deeper learning. To do this the purpose, and fitness-for-purpose, of assessments have to be clear. Gordon Stobart critically examines five issues that currently have high-profile status: intelligence testing learning skills accountability the 'diploma disease' formative assessment Stobart explains that these form the basis for the argument that we must generate assessments which, in turn, encourage deep and lifelong learning. This book raises controversial questions about current uses of assessment and provides a framework for understanding them. It will be of great interest to teaching professionals involved in further study, and to academics and researchers in the field.

Mathematical Studies Standard Level for the IB Diploma Coursebook

American Musical Theater

Gerald Bordman's American Musical Theatre has become a landmark book since its original publication in 1978. In this third edition, he offers authoritative summaries on the general artistic trends

and developments for each season on musical comedy, operetta, revues, and the one-man and one-woman shows from the first musical to the 1999/2000 season. With detailed show, song, and people indexes, Bordman provides a running commentary and assessment as well as providing the basic facts about each production.

How did Melbourne earn its place as one of the world's 'music cities'? Beginning with the arrival of rock 'n' roll in the 1950s, this book explores the development of different sectors of Melbourne's popular music ecosystem in parallel with broader population, urban planning and media industry changes in the city. The authors draw on interviews with Melbourne musicians, venue owners and policy-makers, documenting their ambitions and experiences across different periods, with accompanying spotlights on the gendered, multicultural and indigenous contexts of playing and recording in Melbourne. Focusing on pop and rock, this is the first book to provide an extensive historical lens of popular music within an urban cultural economy that in turn investigates the contemporary nature and challenges of urban music activities and policy.

Billboard

IB Prepared: Mathematics applications and interpretations ebook

This completely new title is written to specifically cover the new IB Diploma Mathematical Studies syllabus. The significance of mathematics for practical applications is a prominent theme throughout this coursebook, supported with Theory of Knowledge, internationalism and application links to encourage an appreciation of the broader contexts of mathematics.

Mathematical modelling is also a key feature. GDC tips are integrated throughout, with a dedicated GDC chapter for those needing more support. Exam hints and IB exam-style questions are provided within each chapter; sample exam papers (online) can be tackled in exam-style conditions for further exam preparation. Guidance and support for the internal assessment is also available, providing advice on good practice when writing the project.
