The text Organic Structures from 2D NMR Spectra contains a graded set of structural problems employing 2D-NMR spectroscopy. The Instructor's Guide and Solutions Manual to Organic Structures from 2D NMR Spectra is a set of step-by-step worked solutions to every problem in Organic Structures from 2D NMR Spectra. While it is absolutely clear that there are ways to get to the correct solution of any of the problems, the instructor's guide contains at least one complete pathway to every one of the questions. In addition, the instructor's guide carefully rationalises every peak in every spectrum in relation to the correct structure. The Instructor's Guide and Solutions Manual to Organic Structures from 2D NMR Spectra: complete set of worked solutions to the problems contained in Organic Structures from 2D NMR Spectra. Provides a step-by-step description of the process to derive structures from spectra as well as annotated 2D spectra indicating the origin of every cross peak. Highlights common artefacts and re-enforces the important characteristics of the most common techniques 2D NMR techniques - including COSY, NOESY, HMBC, TOCSY, CH-Correlation and multiplicity-edited C-H Correlation. This guide is an essential aid to those teachers, lecturers and instructors who use Organic Structures from 2D NMR as a text to teach students of Chemistry, Pharmacy, Biochemistry and those taking courses in Organic Chemistry. Instructor's guide for vehicle emissions control training

The third volume in the First Language Lessons series, this scripted guide uses the classical techniques of memorization, copywork, dictation, and narration to develop your child's language ability in the formative first years of study. The Level 3 Instructor Guide for First Language Lessons for the Well-Trained Mind reinforces the grammar and writing concepts introduced in the previous levels. It also introduces new material, including sentence diagramming. This instructor book has the same simple-to-use, scripted format as the previous levels. (The Level 3 Student Workbook is available separately; the workbook makes it easier for busy parents to spend more time teaching, and less time preparing—you don't have to hand-draw any diagram frames!) First Language Lessons Level 3 is designed to follow Levels 1 and 2, but can be used as a first grammar text for older students. The optional end-units on writing letters, dictionary skills, and oral usage allow you to tailor the instruction to the needs of your child. Grade Recommendation: Grades 2-4.

Having the capacity to benefit from emotions, rather than being paralyzed by them, offers people the opportunity to navigate difficulties, while being able to face life, relationships, and themselves with courage, grace, and strength. In "The Skills System Instructor's Guide," author Julie F. Brown provides a curriculum for helping people improve emotion regulation capacities, which allows the person to actively participate in both joyful and challenging aspects of life. The guide presents nine simple, user-friendly adaptive coping skills effective for individuals of diverse learning abilities. Based on Dialectic Behavior Therapy principles, the Skills System helps people of all ages learn to effectively regulate emotions, thoughts, and actions to reach personal goals. PRAISE FOR "The Skills System Instructor's Guide" "In this instructor's guide, Julie Brown provides a clear step-by-step introduction to the emotion regulation skills curriculum that she has developed over the course of two decades of work with individuals with learning challenges and emotional difficulties. Brown succeeds admirably where few others have even dared to set foot. Complex emotion regulation challenges are broken down into manageable problems using a series of steps that people of many different skill levels can apply for themselves. At once simple and sophisticated, this guide is a must for anyone who works with, or cares for, someone with emotion regulation difficulties." -James J. Gross, PhD, professor of psychology, Stanford University; editor, "Handbook of Emotion Regulation" "This practical Skills Training Handbook fills a critical need of providing Dialectical Behavior Therapy based techniques and related treatment procedures to individuals with emotional and intellectual challenges. KUDOS Julie Brown." -Donald Meichenbaum, PhD, Distinguished Professor Emeritus, University of Waterloo, Ontario, Canada; Research Director of the Melissa Institute for Violence Prevention Miami, Florida "Purchase this book and you will return to it again and again. The Skills System offers a concise, ultra-pragmatic skills training approach with comprehensive, step-by-step curriculum materials, great for teaching emotion regulation to learners of all abilities. Both experienced and novice skills trainers will love her tool kit of teaching strategies!" -Dr. Kelly Koerner, PhD, Evidence-Based Practice Institute, Seattle; editor, "Dialectical Behavior Therapy in Clinical Practice: Applications across Disorders and Settings"
