

New Headway Upper Intermediate 3rd Edition

The world's best-selling English course - a perfectly-balanced syllabus with a strong grammar focus, and full support at all six levels. Headway's trusted methodology combines solid grammar and practice, vocabulary development, and integrated skills with communicative role-plays and personalization. Authentic material from a variety of sources enables students to see new language in context, and a range of comprehension tasks, language and vocabulary exercises, and extension activities practise the four skills. "Everyday English" and "Spoken grammar" sections practise real-world speaking skills, and a writing section for each unit at the back of the book provides models for students to analyse and imitate. Workbook audio available at <https://elt.oup.com/student/headway/?cc=gbandsellLanguage=en> www.oup.com/elt/headway/a. The present volume contains a selection of papers presented at the conference Cognitive Approaches to English, an international event organized to mark the 30th anniversary of English studies at the Faculty of Philosophy, Josip Juraj Strossmayer University, Osijek, which was held in Osijek on October 18–19, 2007. The participants were invited to discuss issues in cognitive accounts of English, ranging from fundamental to methodological to interdisciplinary and applied. The volume is accordingly divided into four parts. Part I, Motivation in grammar, deals with various phenomena in the grammar of English in the broadest sense of the term, all of which are shown to be motivated by metaphorical and/or metonymic operations. Part II, Constructing meaning (between grammar and lexicon), contains five chapters dealing with phenomena ranging from various peculiarities of form-meaning pairings (such as synonymy, polysemy, and figurative meanings) to concept formation. The four chapters that make up Part III are concerned with the phenomenon of interlinguistic and intercultural variation in the use of metaphorical and metonymic processes. The volume is concluded by Part IV, the three papers of which attempt to reconsider some TEFL issues from a cognitive linguistic point of view.
