

Scrapbooking With Photoshop Elements The Creative Cropping Cookbook

Photoshop Elements 13 looks sharper, performs better, and has more sophisticated photo-editing and slideshow features than previous versions—but knowing which tools to use when can be confusing. The new edition of this bestselling book removes the guesswork. With candid, jargon-free advice and step-by-step guidance, you'll get the most out of Elements for everything from sharing and touching-up photos to fun print and online projects. The important stuff you need to know: Get to work right away. Import, organize, edit, crop, and color-correct your photos with ease. Retouch any image. Repair and restore old and damaged photos, and patch undesirable areas with Content-Aware Fill. Add pizzazz. Dress up your photos with dozens of filters, layer styles, and special effects. Create the perfect picture. Seamlessly insert people and objects from other photos, using Photomerge Compose. Share your photos. Use new methods to quickly create and email stunning slideshows to friends. Use your words. Make greeting cards, calendars, and flyers by adding text to images. Unleash your creativity. Design photo books, scrapbooks, collages, and other projects.

Photoshop Elements 7 includes lots of new tools for sprucing up your photos, like the Scene Cleaner that lets you get rid of unwanted elements and the Smart Brush that makes touch-ups a breeze. But the one thing you won't find in Elements is reader-friendly guidance on how to get the most out of this powerful program. Enter *Photoshop Elements 7: The Missing Manual*, ready to explain not only how the tools and commands work, but when to use them. With this bestselling book (now in its 5th edition), you'll learn everything from the basics of loading

52 More Scrapbooking Challenges, -Elizabeth Kartchner and other hip designers for Creating Keepsakes share fun ideas and tricks to help kick scrapbooking creativity into high gear.

This book breaks new ground by doing something for digital photographers that's never been done before-it cuts through the bull and shows you exactly "how to do it." It's not a bunch of theory; it doesn't challenge you to come up with your own settings or figure things out on your own. Instead, it does something that virtually no other Elements book has ever done-it tells you flat-out which settings to use, when to use them, and why. If you're looking for one of those "tell-me-everything-about-the-Unsharp-Maskfilter" books, this isn't it. You can grab any other Elements book on the shelf, because they all do that. Instead, this book gives you the inside tips and tricks of the trade for organizing, correcting, editing, sharpening, retouching, and presenting your photos like a pro. You'll be absolutely amazed at how easy and effective these techniques are-once you know the secrets. Each year we train thousands of digital

Download Ebook Scrapbooking With Photoshop Elements The Creative Cropping Cookbook

photographers and, almost without exception, they have the same questions and face the same problem—that's exactly what we cover in this book. You'll learn:

- The real secrets of how the pros retouch portraits*
- How to color correct any photo without breaking a sweat (you'll be amazed at how they do it!)*
- How to use Camera Raw for processing not only RAW photos, but JPEGs and TIFFs, too! (And you'll learn why so many pros like it best—because it's faster and easier)*
- The sharpening techniques the pros really use (there's an entire chapter just on this!)*
- How to deal with common digital camera image problems, including removing noise and avoiding halos*
- The most requested photographic special effects, and much more!*

THE BOOK'S SECRET WEAPON Although Elements 7 offers some digital photography features that Photoshop CS4 doesn't offer, there are plenty of features that Photoshop CS4 has that Elements 7 still doesn't have (things like layer masking, Channel Mixer, etc.). But in this book, you'll learn some slick workarounds, cheats, and some fairly ingenious ways to replicate many of those Photoshop features from right within Elements. Plus, since this book is designed for photographers, it doesn't waste your time talking about how to frame a shot, setting your exposure, etc., and there's no talk about which camera or printer to buy. It's all Elements, step-by-step, cover-to-cover, in the only book of its kind, and you're gonna love it!

A comprehensive reference for those looking beyond the traditional form of scrapbooking takes readers through every step of the digital scrapbooking process, from selecting the right camera, to working with software to edit images, to putting everything

Download Ebook Scrapbooking With Photoshop Elements The Creative Cropping Cookbook

together to create one-of-a-kind pages, jewelry, fashion, and home accessories. Original. 20,000 first printing.

Whether you're a photographer, scrapbooker, or aspiring graphic artist, Photoshop Elements 12 is an ideal image-editing tool—once you know how to use it. This bestselling book removes the guesswork. With candid, jargon-free advice and step-by-step guidance, you'll get the most out of Elements for everything from sharing and touching-up photos to fun print and online projects. The important stuff you need to know: Get to work right away. Import, organize, edit, crop, and color-correct your photos with ease. Retouch any image. Repair and restore old and damaged photos. Add pizzazz. Dress up your photos with dozens of filters, layer styles, and special effects. Share photos. Create online albums, email-ready slideshows, and web-ready files. Use your words. Make greeting cards, calendars, and flyers by adding text to images. Unleash your creativity. Design photo books, scrapbooks, collages, and other projects. Find your artistic flair. Create digital artwork from scratch, using tools to draw, paint, and blend.
