The Dictionary Of Heraldry Feudal Coats Of Arms And Pedigrees

Engaging the Crusades is a series of volumes which offer windows into a newly emerging field of historical study: the memory and legacy of the crusades. Together these volumes examine the reasons behind the enduring resonance of the crusades and present the memory of crusading in the modern period as a productive, exciting, and much needed area of

investigation. Crusading was a part of the rich tapestry of family history, with tales of crusading developed as evidence of heroic endeavour to enhance family prestige. Lists of crusaders were published to satisfy this market and heraldry was a visible means of displaying such lineage. Drawing on extensive research and previously untapped sources, this book charts continuing British interest in the crusades, focusing on the nineteenth century. The volume

discusses what was available to read on the subject and how this was discussed in numerous journals. Set in the British context of growing local and regional interest in history and archaeology, the study also considers the physical artefacts associated with the crusades. Tales of the Crusaders - Remembering the Crusades in Britain is the ideal resource for students and scholars of the history of memory and crusades history in a British context.

Although most modern scholars doubt the historicity of King Arthur, parts of the legend were accepted as fact throughout the Middle Ages. Medieval accounts of the historical Arthur, however, present a very different king from the romances that are widely studied today. Richard Moll examines a wide variety of historical texts including Thomas Gray's *Scalacronica* and John Hardyng's *Chronicle* to explore the relationship between the Arthurian chronicles and the romances. He demonstrates how competing and conflicting traditions interacted with one another, and how writers and readers of Arthurian texts negotiated a complex textual tradition. Moll asserts

that the enormous variety and number of existing chronicles demonstrates the immense popularity of the historical Arthur in medieval England. Since these chronicles were the dominant source of Arthurian information for the late medieval reader, they provide an invaluable, and neglected, interpretive context for modern readers of Malory and other later medieval romances. The first monograph to look at the impact of these historical texts on Arthurian literature, *Before Malory* is also the first to show how canonical vernacular romances interacted with chronicle texts that have since dropped out of the canon.

Stuart court, such as masque, architecture, allegorical painting, and heraldry to create the last great Renaissance poem in English. A coherent symbolic design is constructed around the themes of the river and the forest. Pope organizes the structure and style of the poem to create a prophetic version of nationhood, drawing on such sources as the plays of Ben Jonson, the Whitehall paintings of Rubens, the architecture of Inigo Jones, the panegyric work of Dryden, and the topographical poetry of Drayton. The political dimensions of the poem are considered in relation to the foundation of the South Sea Company in 1711, with its foreshadowing of imperial issues to come. The book will spark further interest in a poem that has been gaining increasing attention

Merevale Church, which is the Gate Chapel of Merevale Abbey (1148), contains some of the most important Cistercian stained glass in the British Isles, and includes the famous Jesse window. This book contains a description of the medieval and 19th-century glass, with over 120 pieces listed in the East window alone. There are chapters on

how medieval stained glass was made and in iconography of Jesse windows. The colour plates of all the stained glass are from the RCHME.

This very handsome volume was published in 1902 but it lacked that quintessence of the art of heraldry--colour. Now, after nearly eighty years, this omission has been put right in the present edition, in which the old feudal coats, culled from some of the ancient rolls of arms, have been rendered in their true glory. At last the heraldic tyro, unable to

interpret the colours of a coat of arms from its blazon (the description given in heraldic terms) will be able to see it as it should be seen. The book has acquired a new, appealing and important dimension. -- Introduction.
