

The Great Santa Race Book 13 Frankies Magic Football

The first quarter of the 20th century was a time of dramatic change in auto racing, marked by the move from the horseless carriage to the supercharged Grand Prix racer, from the gentleman driver to the well-publicized professional, and from the dusty road course to the autodrome. This history of the evolution of European and American auto racing from 1900 to 1925 examines transatlantic influences, early dirt track racing, and the birth of the twin-cam engine and the straight-eight. It also explores the origins of the Bennett and Vanderbilt races, the early career of "America's Speed King" Barney Oldfield, the rise of the speedway specials from Marmon, Mercer, Stutz and Duesenberg, and developments from Peugeot, Delage, Ballot, Fiat, and Bugatti. This informative work provides welcome insight into a defining period in motorsports.

Everything you ever wanted to know about Santa, as told to the author of *Cloudy with a Chance of Meatballs* by the big guy himself. This eBook edition includes audio! As you might imagine, the early life of Santa Claus was a liiiiiiiiittle different from the childhood of your average kid. His first words were "ho ho ho!" By five he was wearing a fake beard and mustache, and could rarely be found without his favorite stuffed reindeer. It was clear from a very young age that he was destined for uniqueness.... Despite this, his parents went to great lengths to keep the normalcy in his life. They had him learn guitar (he was in a rock band!), and play baseball (he had quite an arm), and even do chores (okay—here he was like any other kid on earth—he hated chores). But there was no stopping Santa from being Santa, and one winter, he began to make his lists. He checked them twice, and delivered toys to children all over Cincinnati. Then, all over Ohio. Then—the world. Compiled from his baby book, family photos, and report cards, *Santa from Cincinnati* provides a full-spectrum view of the boy who grew to be the man who grew to be Santa.

A funny picture book about what Santa does when it's not Christmas. With enough look-and-search-games for an entire year of reading. For little helpers ages 5 years and up. Santa . . . You know his beard, his sleigh, his reindeer, and his presents. Because you see those every December. But do you know what he's up to the rest of the year?

A delightfully devious Christmas story from beloved librarian Betsy Bird and Caldecott Medalist Dan Santat.

This groundbreaking volume presents, for the first time in English, a broad historical review of the researches carried out over 170 years in the region of Lagoa Santa, Brazil, one of the most important archaeological regions in the Americas. From the pioneering work of the Danish naturalist Peter Lund in the XIX century to the recent research on the dispersion of early humans across South America, led by Walter A. Neves and colleagues, Lagoa Santa has offered remarkable findings, the largest collections of early human skeletons in the Americas, and has contributed to the overall discussions about the settlement of the Americas. This edited volume aims to fill the lack of publications in English about Lagoa Santa and gathers representatives of all the main Brazilian institutions directly involved in the archaeological and paleontological investigations in the region, in order to provide the international scientific community a comprehensive and complete account of the researches that contributed to rewrite the history of the peopling of the Americas. The book is organized in two parts. The first consists of chapters describing each of the interventions in the region, beginning with the pioneering work of Peter Lund and culminating with the latest intervention led by Walter A. Neves and his team. The second part of the book consists of reviews of current relevant research foci in the region, such as migrations, health, mortuary rituals, paleontology, rock art and technology.
